Preschool Parent Manual
2018–2019
Hillel says: “Do not separate yourself from the community…”

Pirkei Avot 2:5

Dear Parents:

Welcome to the Early Childhood Program of the Dora L. Lewis Family and Child Development Center. It is our goal to provide a safe and nurturing environment where your child can grow emotionally, socially, cognitively and physically. Our program is designed for creative learning which will stimulate and challenge your child’s natural curiosity and inquiring mind.

Please read this parents’ manual carefully so that you will become more familiar with the early childhood programs, policies and procedures at the Weinstein JCC. If at any time we can be of assistance to you and your family, please call us or meet with us at the Weinstein JCC. We truly look forward to meeting with you and hope that you will become actively involved in our program. We strive to build positive relationships between home and school. We look forward to a wonderful school year and welcome you to our Weinstein JCC preschool community…your home away from home. We are here to answer questions and concerns so please feel free to stop by or call us anytime!

Sincerely,

Donna Peters

LICENSING and ACCREDITATION

LICENSING

The Commonwealth of Virginia Department of Social Services licenses the Weinstein JCC Early Childhood Program. The Department of Social Services has developed minimum standards for child care centers. The Weinstein JCC Early Childhood Program adheres to these “Minimum Standards” or to policies, which are more stringent. A copy of the Minimum Standards is available for review in the Preschool office or by contacting the Virginia Department of Social Services at 1-800-552-3431. Parents may also review the Weinstein JCC Preschool program’s most recent licensing reports located on the bulletin board outside the preschool offices.

ACCREDITATION

The Early Childhood Program at the Dora L. Lewis Family and Child Development Center is proud to have been accredited by the National Academy of Early Childhood Programs consistently since 1986. This recognition was given to the program for having demonstrated substantial compliance with nationally recognized Criteria for High Quality Early Childhood Programs. The program is reaccredited every three-five years. A copy of the NAEYC Early Childhood Program Standards and Accreditation Criteria can be obtained from the preschool office; parents may also review the program and classroom portfolios required by accreditation.

CELL PHONE RESTRICTIONS

For safety reasons, we require that cell phones not be used:

- Upon entering the preschool.
- During carpool arrival and dismissal.
- When walking in the preschool halls.
- When in the classrooms.
- When driving through the Weinstein JCC parking lot.
- When driving on field trips.

We appreciate your cooperation in this matter!

IMPORTANT!

The Weinstein JCC has written policies to promote wellness and safeguard the health and safety of children and adults.

Please be aware that the Weinstein JCC prohibits smoking, firearms and other significant hazards that pose risks to children and adults. This policy is strictly enforced.
Dear Weinstein JCC Preschool Parents,

Welcome to the Weinstein JCC Preschool from the Early Childhood Committee! The Early Childhood Committee (ECC) is the governing body of the Weinstein JCC Preschool with responsibility for policy, procedures, and programming. We are excited to have your children joining us and we look forward to a wonderful year. At our preschool, the safety and security of our children is our highest priority, and we need your help regarding some important safety policies.

The Weinstein JCC Preschool has two policies that directly involve you as preschool parents. The first is that we have a no cell phone policy for the Weinstein JCC Preschool parking lot. Please note that this includes talking on the cell phone during both driving and walking in the lot. Our parking lot gets very busy and we feel that the distraction of talking on a cell phone creates a hazard for you and your children as they enter and exit the building. Please observe our “no cell phone zone”!

The second policy is that all parents wear their Weinstein JCC identification badges while at the preschool. These badges allow access into the secured preschool classroom area and also allow the staff to identify you as a preschool parent. We are asking you to display your Weinstein JCC identification badge at all times while in the Weinstein JCC Preschool building. If you do not have your badge and are trying to enter the secured area, please don’t ask another parent to let you in. Any parent without their Weinstein JCC badge can go to the building’s main entrance and check-in at the front desk. The front desk personnel will verify your ID and issue a temporary card to allow access to the preschool for the day. Please be advised if you enter the secured preschool without your badge visible, you will be asked to immediately display it.

This policy is in place because we recognize that if our identification cards are not used consistently by parents, they become almost completely ineffective. The ECC determined that we wanted to maintain an environment that allows our parents to walk their children in and out of preschool while providing a secure building. During carpool drop-off, preschool staff will hold the doors open for arriving families but we still ask that your badge be visible.

In conclusion, observing our no cell phone zone and wearing your Weinstein JCC badge while in the preschool area is mandatory. We need your cooperation in this matter and greatly appreciate your support!

Sincerely,

Jodi Franklin                Jen Tsimpris

EARLY CHILDHOOD MISSION STATEMENT & VALUE

Early Childhood Dept. Mission & Value Statements
The Dora L. Lewis Family and Child Development Center....
A dynamic, child centered inclusive community where learning is supported by Jewish values.
Value Statements:
To provide experiences that foster:
1. Respect for the individuality of each child and family.
2. Jewish learning, values and traditions.
3. A connection to the natural world.
4. Learning through discovery, exploration and play.

PURPOSE

The purpose of education in the Early Childhood Department of the Dora L. Lewis Family and Child Development Center of the Carole and Marcus Weinstein Jewish Community Center is to develop young children’s minds, bodies and emotions, as well as to produce individuals who are self-directed, lifelong learners by:

- Fostering Jewish identity through an experiential approach to Judaism.
- Generating a relaxed Jewish atmosphere which provides openness, spontaneity, creativity, joy and love.
- Providing an environment which promotes problem solving and allows for children to express and explore their ideas and intentions.
- Providing an array of stimulating activities to promote aesthetic and cultural awareness, academic readiness, motor development and social skills.
- Encouraging independence, feelings of self-confidence, respect for others and a sense of belonging and sharing in a group.
- Offering loving support to each child and each family.
- Provide early opportunities for children with and without disabilities to grow and develop together in nurturing and inclusive settings, while maintaining natural proportions.
- Fostering an educational program, An Ethical Start™ developed to teach Jewish ethics and values.
- Providing opportunities for children to connect to the natural world.

A. PHILOSOPHY STATEMENT

Our philosophy is based upon the belief that we have the ability and responsibility to nurture each child’s social, emotional, cognitive, and physical growth through interactions and experiences that foster a zest for life and a love of learning. We offer a child-centered program which is inspired by the Reggio Emilia Approach. We believe that “care” and “education” are inseparable and view each child as a feeling, thinking, and creative individual whose growth we nourish. We believe a child’s positive self-esteem is paramount to emotional, social, physical, and intellectual development. The daily environment we create for our children must provide them with all the components necessary for positive growth and development. Developmentally Appropriate Practices encourage the children to view themselves as capable human beings. We are committed to supporting the parents/guardians of our preschoolers by providing a variety of quality services and by developing positive relationships between home and school.
We believe that early childhood experiences provide the foundation for one’s lifetime. The Weinstein JCC Preschool program provides individualized experiences based on authentic assessment to promote the optimal social, emotional, physical, intellectual, language and spiritual development of each child.

- We believe that young children learn through direct and concrete experiences. Ongoing opportunities for discovery, exploration and experimentation are provided to encourage children to think, reason, question and experiment through intentional activities planned by the teachers and those that emerge from the interests and needs of the children and families.

- We believe that a child’s self-perceptions are influenced by the attitudes of significant others in his/her life. Adults involved in the child’s life are viewed as partners and are encouraged to actively participate in the educational experiences of the child. The Weinstein JCC Preschool program strives for a positive and accepting social-emotional environment for children, families and educators to work together and feel supported and nurtured.

- We believe that each child, family and faculty member is unique. Individual needs and differences are valued in order to promote tolerance and respect for the diversity found within the Weinstein JCC Preschool as well as in the larger society.

B. GOALS

The Weinstein JCC Early Childhood Program provides a variety of developmentally appropriate activities and materials that emphasize concrete experiential learning in order to achieve the following goals:

These goals guide teacher’s ongoing assessment of children’s progress.

1. Attend to the needs of each individual child helping them to feel safe, happy and comfortable throughout the day.
2. To develop in each child independence, confidence and a feeling of self-worth as an individual and as a member of a group.
3. Develop positive and age appropriate social skills.
4. Encourage cognitive development through thinking, reasoning, questioning, and experimenting.
5. To prepare our children for continued academic success in the areas of cognitive, physical, emotional and social development through language, literacy, listening, visual discrimination, large and small motor skills, handwriting, math and science.
6. Encourage and demonstrate sound health, safety, and nutritional practices.
7. Encourage creative expression and appreciation for the arts.
8. To foster in young children and their families a sense of Jewish identity, an understanding of and a respect for the Jewish religion and culture.
9. Promote a respect for the cultural diversity of staff, children and their families.
10. Be responsive to individual family home values, beliefs, experiences and language as well as to the individual learning needs of all children.
11. Support early spiritual formation based on trust, concern for and acceptance of others.
12. To stimulate each child’s curiosity, sense of wonder, and motivation to learn about the world around them by establishing an age appropriate hands-on and stimulating indoor and outdoor environment.
13. To develop in children a social responsibility by teaching good will towards others and respect for the environment.
14. To support and nurture parents and guardians in their efforts as they provide stability, growth and enrichment of their young child’s development.
C. **FORMAL METHODS TO IMPROVE PROGRAMMING**

The Early Childhood Department uses formal and informal methods to develop strategic plans for improvement and to monitor that we are meeting families’ needs. The various plans are formulated through the Budget Committee, Early Childhood Committee and/or the Family and Youth Committee of the Weinstein JCC. Formal and informal strategic plans are developed in order to:

- implement and sharpen the program’s vision and mission;
- achieve outcomes that are appropriate and desired for the children in our care;
- maintain high quality services to children and families; and
- provide long-term resources to sustain the successful operation of the program.

The strategic planning process includes methods such as:

- review of family surveys and evaluations;
- review of child assessments;
- review of educator’s assessments;
- comparative studies of area preschools;
- opportunities to promote educator’s professional development;
- review of building/physical space;
- review of salary scales and ways to increase salaries and benefits;
- plans to retain teaching faculty; and
- creation of focus groups to evaluate programs and services.
- creation of faculty task forces

D. **THE REGGIO EMILIA APPROACH**

The Weinstein JCC’s Early Childhood Department is inspired by the Reggio Emilia Approach. The Reggio Approach complements our beliefs in early childhood education and allows us to explore curriculum methods which increase children’s creative and cognitive expression.

The basic premise of the Reggio Emilia Approach is a shared and deep belief in the strength of children’s potential for learning, exploring, and entering into relationships with their peers, teachers, and environment. Inherent in the premise is the expectation that children make hypotheses and discover connections and meanings among things and events of their daily lives.

Children have many languages for expressing and communicating. The Reggio Emilia Approach inspires us to provide the creative freedom for children to fully represent their ideas and to develop their thinking. An integral aspect in the Reggio Approach is the use of art as a means to enhance creativity and represent a child’s imagination. Art is inseparable from the rest of the curriculum, and in fact, is central to the educational process as a form of both exploration and expression.
The Reggio Approach –
Teachers and Children...Working and Learning Together
By: Donna Peters, Early Childhood Director

The Reggio Emilia Approach grows from the belief that children are rich, powerful people full of the desire and ability to grow up and construct their own knowledge. Stimulating interactions and many opportunities to communicate with one another and with caring, respectful adults help children to grow, develop and learn.

EXPLORATION

Weinstein JCC preschool educators inspired by the Reggio Emilia philosophy consider creativity and learning part of the same process. When children actively and intently explore an object – a flower, a bird – they create their own knowledge. Like detectives, children pose questions, and then investigate to find answers. They use the many “languages” of art, words, movement, etc., to communicate their knowledge to themselves and others. Teachers act as resources to and researchers of the learning process by asking thought provoking questions, offering materials, and documenting children’s work.

DOCUMENTATION

Teachers routinely take notes and photographs and make recordings of group discussions and children’s play. Teachers use what they learn to plan activities that are truly based on children’s interests. By reviewing the documentation, teachers gain insights into children’s individual personalities and child development as a whole. Most importantly, they let each child know he or she is understood and accepted for who he / she is. This philosophy permeates every aspect of the program, including the use of space, teachers’ interactions with children, and curriculum decisions.

PROJECT WORK

An integral piece of the curriculum is projects. Project work offers children and teachers opportunities to come together within the environment and deeply investigate children’s interests. Projects also support children’s natural impulse to investigate the world around them. Small or large groups, or an individual, work on projects, and these can last anywhere from a few days, weeks, to several months. Almost any interest that intrigues children can inspire a project. Project work encourages children to take initiative, assume responsibility, and make decisions and choices.

TEACHERS AS CO-LEARNERS

The teachers welcome new possibilities, unexpected ideas, and actively learning with the children. Teachers support children in their learning by encouraging, observing, and organizing their ideas, as well as supplying materials. At the beginning of a project, teachers do not know what direction it will take, but it is sure to include lots of discussion, graphic representation, and real cooperation among everyone involved.

I feel deeply that a child-centered approach helps children to feel pride in their own accomplishments and explorations. This in turn helps children to flourish and grow in their self-concept, social and learning skills.
MORE ABOUT OUR CHILD-CENTERED APPROACH...

Our Philosophy defines our program as a developmental, child-centered program, inspired by the Reggio Emilia Approach. Developmentally appropriate practices are defined as teaching and learning strategies or methods that build on the child’s current knowledge, abilities or interests. For example, “Oceans” is probably not a developmentally appropriate theme for those under three. Water is developmentally appropriate. Using inventive spelling in journal writing is developmentally appropriate for most five-year-olds. Requiring correct spelling is not.

Developmental programs are often contrasted with academic programs. The difference between developmental and academic programs is not the amount of learning that occurs, but rather the subject matter and the teaching strategies. True academic programs have preset curriculums determined by opinions about what children should learn at a particular age, at a certain time of the year, or at the whim of the teacher or curriculum developer. They traditionally focus on theoretical knowledge while developmental programs are concerned with physical, social, practical and theoretical knowledge. (Learning to serve yourself a snack or share with a friend is considered important in a developmental program.) Academic programs are teacher-directed. The teacher tells the child the information to be learned.

Developmental programs are child-centered. A child-centered program is one where the child participates in the planning and is expected to make choices. However, it is not the same as unstructured play. Teachers and assistant teachers have an active role in child-centered programs. Their role is to set up the classroom environment with developmentally appropriate interest areas, activities, and materials that pique interest and allow for independence. Teachers also provide new experiences (social, physical, and intellectual) that build upon their knowledge and information. The selection of materials, furniture placement, activities offered, and class discussions all determine the nature of learning that will take place that day. For example, the teacher is responsible for providing developmentally appropriate math learning opportunities. The teacher may do this by putting out sorting activities, countable items, or measuring tools that encourage the children to explore and build math skills.

The children are given choices throughout the day. For example, our behavior management program is designed to help children make choices that work well for themselves and for the group. If the child does not want to participate in an activity or is being disruptive, it is appropriate to suggest alternative activities. Redirecting the child by suggesting alternatives, rather than telling her/him what to do, begins the process of teaching abstract, divergent thinking skills. After you have provided alternatives, the child will begin to think of them as her/his own. S/he then begins the process of becoming an abstract thinker with problem solving skills that enable her/him to be flexible. On the other hand, while a circle time with required attendance is not considered child centered, we do not typically ignore the child who chooses not to attend. It is the teacher’s responsibility to make circle time so inviting that the child wants to attend and to adjust the requirements for circle time so that child can be successful. The teacher recognizes that participation builds the classroom community and encourages the children to be a part of the group-time activities.

Ideally, teachers know the concepts they want to teach that day and the children are involved in the planning of the activities. An example is when we ask which centers the children want to use rather than telling them what they can do. The teacher may choose the materials for the centers; the children decide what to do with them. Continuing with the math examples, she/he might approach a group who had chosen to play with cars, put two red cars in a group and ask which of the other cars belong with this group. The teacher is then acting as the facilitator, using the child’s interests to provide the opportunity for the child to build knowledge around the concepts the teacher is teaching.
We encourage process art activities that are child-centered rather than product art that is teacher-directed. Product art activities are teacher-centered because the teacher’s, rather than the child’s, interests are given priority when the teacher begins with a model. Product art activities tend to stifle creativity and hurt self-esteem since the child is told how to use materials, and the end result is rarely as good as the teacher’s.

We believe children learn by constructing or building their own knowledge. For example, in a three-year-old room Betsy insists the milk pitcher be filled to the top and it spills when she tries to fill her cup. The teacher hands her a pitcher with a smaller amount. Betsy pours successfully. She reevaluates her previous knowledge and builds new knowledge that she will use next time she fills the pitcher. In a five-year-old room, Karen says kids in wheelchairs do not belong in her room because they cannot do what she can do. As she spends time with James, she becomes comfortable with children who cannot walk, re-evaluates her previous knowledge and builds new knowledge that will hopefully make her more tolerant as an adult. In another room, five-year-old Levi insists the stuffed bear weighs more than the wooden duck because it is bigger. The teacher balances a board on a can (build a fulcrum), helps Levi place each animal on an end, and Levi re-evaluates his previous knowledge and corrects misinformation when the end with the duck hits the table. In each case the teacher carefully constructed the environment to provide a learning opportunity.

This type of teaching requires considerable reflection and thought because the teacher must know developmentally appropriate concepts and use the child’s interest to involve the child in developmentally appropriate tasks. The teacher is expected to understand the sequence of cognitive, physical, and social development that generally occurs within their classroom and to be able to provide developmentally appropriate activities that promote growth in each area. Keep in mind that the developmentally appropriate classroom is one where rules are few (respect others, walk, use appropriate voices, clean up your area before moving to another) and children lead rather than follow the teacher, create rather than duplicate, move rather than wait, make lines rather than color in the lines, initiate rather imitate, make art rather then do crafts, choose wisely rather than be told, decide rather than submit, make a plan rather than follow the teacher’s plan, create books rather than fill in worksheets, emphasize the process rather than the product, and try again rather than fail.

E. CHILDREN AND THE NATURAL WORLD

The Southern Early Childhood Association (SECA) a regional affiliate of NAEYC has selected the Dora L. Lewis Family and Child Development Center as the recipient of the 2013 award for the development of an outstanding Early Childhood Outdoor Classroom/Play Space for the State of VA. Our program was highlighted in an article published in the Summer 2013 issue of Dimensions in Early Childhood magazine which can be viewed online by typing the following URL:
http://go.epublish4me.com/ebook/ebook?id=10052149#/28
The Importance of Connecting Children to Nature

The Weinstein JCC Early Childhood Department strives to create authentic spaces for children outdoors to interact with nature and to freely run, climb, dig, collect, pretend, take risks, create and safely explore the world around them.

Research has shown that children are missing connectiveness to nature. They are also missing a rich social and fantasy play life and spaces to cultivate imagination. Through pretend play children come to better understand their world. By creating well designed outdoor play spaces, children can make deeper connections with the natural world.

Richard Louv, author of Last Child in the Woods, has coined a term for what is happening to our children – nature deficit disorder. He is a firm believer in the benefits of outdoor play spaces, emphasizing that exposure to nature can improve health both physically and psychologically. “Natural settings stimulate learning,” he says. Today’s children are experiencing a cultural change. In the age of TV, video games and computers, many of our youngest children are missing out on an important aspect of early childhood development: the outdoors. The precious gift of nature is a seriously needed influence for children today.

Exposure to nature enhances children’s observation and problem solving skills as they connect with the wonders of the natural world. Research shows that a connection with nature benefits children educationally, behaviorally, and developmentally. The textures, shapes and warmth of nature spark their senses as they discover the environment and develop life-long learning skills, such as:

- Building visual-spatial skills;
- Strengthening powers of observation, discovery, exploration, and creativity;
- Improving ability to concentrate, even among children with behavioral challenges;
- Enhancing motor skills such as coordination and, balance and agility;
- Developing imagination and a sense of wonder...motivating factors for life-long learning;
- Sense of self and competence;
- Appreciation of the unknown

Some of the outdoor areas that we offer on our outdoor play spaces include:

A walled & trellised entryway, a climbing/crawling area, an open area for large-motor activities, a music and movement area with all weather instruments, vegetable and herb gardens, a greenhouse, flower gardens, a butterfly garden, compost piles, worm bins, a gathering area, a covered pavilion, nature art areas, water areas, sand areas, cooking areas, dirt-digging areas, mud play, a messy materials area for building, tree stumps, natural wood balance beams, a bike path that flows throughout the playgrounds and a bird sanctuary.

Our youngest generation must learn to connect with nature. Our children’s future and the world’s future depend on it. By making nature an enriching part of the daily lives of children, we are inspiring the next generation of tree planters and environmental stewards! We enjoy working with our children and parents to make real changes in the lives of young children- changes that will make a difference in their lives in so many ways. It is important to teach even our youngest children that our commitment to the natural world enriches and enhances our humanity.
We want to encourage our children to explore the world with a sense of wonder and to help them see that they too have a responsibility to care for the world around them. We must inspire our youngest generation to connect with nature. Our children’s future and the world’s future depend on it. By making nature an enriching part of the daily lives of children, we are inspiring the next generation of tree planters and environmental stewards!

*Look deep, deep into nature and then you will understand everything better.*

Albert Einstein

**Nature and Garden Educators**

As part of our ongoing commitment to nature education we are fortunate to have the position of a Nature Education Specialist in the preschool. Patsy Glazer, a long time teacher in our preschool has successfully taken on this role. Patsy serves as a resource for both teachers and students by modeling curiosity, engagement, inquiry, and an appreciation for all that nature has to offer. In keeping with the mission of the preschool, Patsy plans a curriculum that is child-centered and developmentally appropriate, providing and selecting materials and instruction to support and extend the children’s learning. Cath Cowan is our Garden Educator. She plans and implements developmentally appropriate curriculum, training and hands-on activities for children, parents and faculty on Garden Education and Sustainability in our Edible Schoolyard. As we continue developing our outdoor classrooms and gardens, Patsy and Cath create curriculum opportunities that parallel what teachers are doing indoors, enhancing and deepening the involvement of both the educators and children in our outdoor classrooms and gardens.

Our adventure in creating beautiful spaces encourages children to appreciate nature and explore their natural environments as well as helps them to value their relationships with each other, the world at large, and their communities, while fostering their own personal spiritual growth and sense of self. Being directly involved in the natural world helps build empathy, caring, kindness, and wonderment. These characteristics help children become whole, well balanced individuals. It helps “fill up” a child’s emotional well-being as they build personal and collective relationships with the world around them.

“...If a child is to keep alive his inborn sense of wonder, he needs the companionship of at least one adult who can share it, rediscovering the joy, excitement, and mystery of the world we live in.” Rachel Carson

**F. CURRICULUM FRAMEWORK**

Philosophy and Curriculum Guidelines

*To Maintain a Safe and Healthy Physical Environment*

1. Teacher/child ratios meet the suggested ratios of the National Association for the Education of Young Children and generally provide better supervision than State requirements.
2. Teachers conduct a brief wellness check as each child begins the day.
3. Rooms, equipment and materials are routinely inspected and kept in clean, working order.
4. All educators are trained in appropriate methods of preventing illness and maintaining a safe environment.
5. Children are never to be left unattended, and always within sight and sound supervision.
To Provide a Developmentally Appropriate Program that Offers Children Choices in a Supportive and Stimulating Environment

1. Space, routines, materials, and equipment are used as resources for activities that are appropriate to the developmental levels and individual learning styles of the children.
2. Activities are designed at appropriate developmental levels to build self-esteem and to encourage curiosity, exploration, and problem solving.
3. All children are encouraged to explore a variety of individual, small and large group options so that boys and girls have the opportunity to experience different roles and feel free to experiment with all materials, equipment and toys.

To Promote the Social/Emotional Development of Each Child

1. The environment is conducive to developing relationships with other children and adults. Cooperation efforts, mutual respect, appreciation of diversity, and shared leadership characterizes all activities.
2. Emotional security grows as each child is guided in self-knowledge, self-acceptance and pride in individual accomplishments. Children are also helped to maintain a comfortable separation from their parents as they join in activities that promote a sense of competence and independence.
3. Social skills are developed under the guidance of caring educators helping set the stage for problem solving, cooperative play, and shared responsibility.

To Promote Cognitive Growth

1. Activities involving communication, literacy, math, science, music, drama and art are offered at appropriate developmental levels to foster each child’s growth and competence.
2. Children are encouraged to express thoughts, ideas, and feelings as they expand their understanding of the world and to represent these ideas to others cerebrally, graphically, and through dramatic play.
3. Children are encouraged to explore new materials, investigate new areas, and develop confidence in their ability to process and integrate new knowledge.
4. Listening and thinking skills are naturally developed through story reading and conversations. Children are read stories daily and we encourage parents to continue this activity at home.
5. Children are given the opportunity to make choices as they solve problems, join in activities and plan their day.
6. Children are encouraged to try new foods in a low pressure and fun environment in our Edible Schoolyard and through healthy snacks.

To Promote Physical Development

1. Physical development is promoted through both daily structured and choice activities, such as playground, movement activities and gym.
2. Fine motor development is promoted by the inclusion of manipulative and age appropriate tools.
3. Teachers and parents can refer to the Motor Development Resource Manual located in the Teacher Workroom for more specific activities to use in the classroom and for at home.
4. Children have use of appropriately sized gardening tools, our weaving loom, and other garden implements. They also regularly plant seeds and care for our school garden, all activities that promote fine and gross motor skills.
To develop an understanding of Jewish culture, history, language, a sense of Jewish identity and the teaching of Jewish ethics and values (Pirkei Avot)

Shimon the Tzaddik used to say: “The World stands on three things: on Torah study, on the service (of G-d), and on acts of loving-kindness.”
-Pirkei Avot 5:26

Children of all faiths are welcome into the Early Childhood Program and are invited to join in our exploration of Judaism that is an integral part of the curriculum. Dawn Kowal, Preschool Judaic specialist visits each classroom regularly and assists the teachers in teaching songs, stories and holiday observances.

The children learn songs in both Hebrew and English.

The children celebrate every Friday morning in a Shabbat program consisting of songs, blessings and the sharing of challah. Parents are always welcome to attend.

Celebration & observance of all Jewish holidays are a large part of our program.

The children participate in the ceremony of Havdallah every Monday morning. Observing the end of Shabbat and looking forward to the next Shabbat.

The children have many opportunities to learn about the land of Israel and its connection to our heritage.

The children participate in the giving of Tzedakah (money for charity) every Shabbat (Friday). On Fridays children can bring in a few coins to place in the class’s Tzedakah box.

The children participate in doing mitzvot (acts of kindness). Families are also involved and given many opportunities throughout the year to participate in giving back to our local community and the larger community.

The children learn the importance and meaning of many Jewish symbols such as the Mezuzah (prayer affixed to the doorposts), The Magen David (Star of David), Kippah (head covering), Torah and Megillah (Scroll of the story of Queen Esther), Shofar (rams horn), Challah Bread, Kiddush Cup, Shabbat Candles, Havdallah braided candle, and the tallit (prayer shawl).

An Ethical Start™ – Teaching Jewish Values (Pirkei Avot)

Ben Zoma says: “Who is wise? The one who learns from everyone.”
-Pirkei Avot 4:1
G. AN ETHICAL START™

An Ethical Start™ is based on the book “Pirkei Avot - Ethics of the Fathers”. It is an educational program developed to teach Jewish ethics and values to preschoolers through the study of 16 mishnayot (teachings).

An Ethical Start™ was developed by the Jewish Community Center Association (JCCA), which was funded in part by the Steven Spielberg Righteous Persons Foundation.

The program is based on the exploration of the text, “Ethics of Our Fathers”. An Ethical Start™ is incorporated within our emergent curriculum through the use of specially created books, music and the unique doll PeerK Explorer. The Early Childhood Faculty study the text “Ethics of Our Fathers” in order to deepen their understanding of the mishnayot (teachings), share insights into their own interpretations and to study the commentary of other Rabbis and sages. Patsy Glazer and Dawn Kowal lead the study sessions and mentor the staff through age group and whole group meetings.

The innovative program enhances and deepens family commitment to the learning and practice of ethics and values. The six areas of focus consist of the following values: responsibility, dignity, kindness, community, tradition and respect.

An Ethical Start™ is a groundbreaking way of helping families and early childhood teachers study a classical text and develop a shared vocabulary for raising young children with a respect and understanding of ethics and values.

An Ethical Start™ program is based on an imaginative character, Peer K Explorer™, an animated character and three-dimensional doll, who are our children’s "guide," just as Pirkei Avot is our guide to value-based teaching. The multi-media approach encourages interest and peaks learning.

One of the best known teachings of Pirkei Avot is attributed to Rabbi Hillel, “If I am not for myself, who will be for me? And, if I am only for myself what am I? And, If not now, when?”

Pirkei Avot 1:14

This mishna (teaching) is designed to teach a Jewish definition of the self. Young children can understand that they, and all other people, have innate worth simply by virtue of being human. Children can also be taught through exploration of this mishna that they have choices and that having free will involves taking responsibility for our actions, especially as those actions affect others. What an important concept for our children to understand!

Peer K. Explorer, with his smile, backpack, and special tools, is just the friend to help guide our children in exploring our world, respecting each other, and cherishing every moment. As Peer K. himself would say, “Come and be my partner…” If not now, when?

Rabbi Akiva says: "...the freedom of choice is given..." Pirkei Avot 3:19

H. LEARNING EXPERIENCES

Pottery/Art: The children will have opportunities to work with clay in their classrooms as well as in indoor and outdoor art studios. Mediums such as paint and clay provide an opportunity for the child to experience satisfaction with manipulation, experimentation, and exploration of the medium, and provide outlets for the expression of ideas, feelings and emotions. Activities are open-ended and are process oriented rather than product oriented.

Dramatic Play: This enables the child to re-enact the experiences in his/her world to understand and explore their meaning. With the help of props such as dolls, hats, and other items, a child may explore being a parent caring for a baby, a doctor giving shots, or an astronaut on the moon. Children can express their new knowledge and use their new vocabulary through Dramatic Play.
Concept Development: Young children are in the process of forming many concepts about their world. The teachers provide experiences in relevant areas of interest to expand each child’s knowledge of cognitive skills, language, curiosity, and problem-solving skills.

Large and Small Motor Activities: Climbing, running, pushing and pulling are a few of the large muscle activities encouraged by the availability of slides, balance beams, and various climbing apparatus. Activities such as cutting and pasting, art activities, puzzles, and other manipulative materials, provide opportunities for the practice and development of small motor skills.

Music: Opportunities include singing, rhythms, listening, rhythmically moving, experimentation with various instruments, and creation and interpretation of music.

Experiences with Literacy: Provide books, child-dictated stories discussions, puppets, storytelling, and many experiences with printed materials which aid in the child’s development and help him / her learn about the world. Games that enrich and promote phonemic awareness.

Science and Math: Experiences offer the child first-hand opportunities for scientific discovery and an understanding of number and quantity. Such experiences include cooking activities, planting seeds, counting, sorting and numerous others.

Blocks: Provide opportunities for dramatic play, social interaction and cooperative activity, as well as opportunities for perceptual and spatial learning.

Judaics: Children will have daily opportunities to learn about their Judaic heritage through stories, songs, games, art, creative play, and the Teachings of Pirkei Avot.

Outdoor Play: Children have daily opportunities to play outdoors on the playgrounds at the Weinstein JCC. The playgrounds are designed for climbing, balancing, running, exploring, sliding, and other gross motor activities. In addition, the preschool playground has play stations to enhance outdoor exploration, imagination and children’s connection to the natural world. The Nature Educator Patsy Glazer will be planning and promoting activities outdoors and indoors that encourage and support children’s appreciation of nature. We are outdoors even in the rain and snow, so please dress your child appropriately.

Physical Education Program: Physical Education instructors, LaVenus Harried and Nick Pruden, work weekly with all preschoolers in the gymnasium. Please be sure your child wears sneakers to school on his/her appropriate gym days. Activities are planned to promote gross motor skill development, body awareness, and physical fitness.

Edible Schoolyard Program: The Edible Schoolyard at the Weinstein JCC is a place where children, teachers, and families can go to connect to nature, learn where food comes from, and actively participate, all while enjoying the freshest produce nature provides!

We have developed a robust gardening program where each preschool and childcare class has scheduled lesson times with Cath Cowan, Garden Educator. These lessons complement emerging projects and lessons already happening in the classroom while giving the children and teachers a chance to explore, taste, study, and play in a rich, outdoor environment. Our garden is a diverse environment of fruits, vegetables, flowers, and herbs, where no synthetic pesticides or herbicides are used.

The food grown in the Edible Schoolyard is eaten primarily by the children. Most of it doesn't even leave the garden! Other ways the garden produce will be used are as follows: our on-site food pantry on Tuesday mornings, with our after-school program, Kid’s Place, and in our snacks during preschool and childcare as well as cooking activities with the children.

The Edible Schoolyard News is sent via email once a month and highlights our classroom’s activities in the garden, city-wide events and initiatives related to food, recipes and beautiful photos of the children learning and exploring.
The children go to the Edible Schoolyard year-round. Sometimes, the garden is a wet place. Proper attire is important so that children can fully enjoy the garden. Please be sure to keep rain boots at school at all times. When it is cold, please keep gloves, a hat, and weather appropriate jacket at school as well. The children visit the greenhouse (which is accessible to everyone), and are involved with worms, hands on, in the worm bin. Plans are underway to enhance the garden in the near future.

The children will participate in gardening activities throughout the year; planting, weeding, harvesting, composting, tasting, plant identification, etc. The Garden Educator, Cath Cowan, guides the children to explore, learn and respect the gardening process while teaching them the importance of sustainable gardening.
**SKILL AREAS**

The following is a breakdown of major skill areas with sub skills listed below.

<table>
<thead>
<tr>
<th>EMOTIONAL/SOCIAL SKILLS</th>
<th>LITERACY AND LANGUAGE DEVELOPMENT</th>
<th>LISTENING SKILLS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Building a positive self concept</td>
<td>Asking and answering questions</td>
<td>Ability to listen to stories</td>
</tr>
<tr>
<td>Expressing feelings</td>
<td>Dramatizing</td>
<td>Ability to listen to a speaker</td>
</tr>
<tr>
<td>Accepting consequences</td>
<td>Role playing</td>
<td>Differentiate sounds and tones</td>
</tr>
<tr>
<td>Responsibility</td>
<td>Nursery rhymes</td>
<td>Follow directions</td>
</tr>
<tr>
<td>Independent behavior</td>
<td>Speaking in complete sentences</td>
<td>Hear likenesses &amp; differences in words and rhythms</td>
</tr>
<tr>
<td>Self-care</td>
<td>Repeating and imitating sounds</td>
<td>Listen for sequence</td>
</tr>
<tr>
<td>Completing tasks</td>
<td>Telling and describing</td>
<td>Rhyming words</td>
</tr>
<tr>
<td>Following directions</td>
<td>Finger plays</td>
<td>Identify sounds</td>
</tr>
<tr>
<td>Making decisions</td>
<td>Classification</td>
<td>Match sounds</td>
</tr>
<tr>
<td>Courtesy and good manners</td>
<td>Phonemic Awareness</td>
<td>Memorize patterns and activities</td>
</tr>
<tr>
<td>Helping others, empathy</td>
<td>Left to right orientation</td>
<td>Comprehension</td>
</tr>
<tr>
<td>Working within a group; cooperation</td>
<td>Knowledge of basic strokes</td>
<td></td>
</tr>
<tr>
<td>Respect the environment and all its citizens</td>
<td>Recognize &amp; discriminate ABC’s</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>VISUAL DISCRIMINATION SKILLS</th>

</table>
Shimon the Tzaddik used to say:

"The world stands on three things: on Torah study, on the service of G-d, and on acts of loving kindness." Pirkei Avot 1:2

I. JEWISH HERITAGE

Practicing Judaism and Jewish traditions are a part of the daily life at the Weinstein JCC. Many basic values of Judaism are incorporated into our activities. These values include: respecting human dignity, sharing, showing compassion and learning responsibility, being creative, cherishing the Torah and Eretz Yisrael (Land of Israel). Jewish values are presented at the child’s developmental level.

Yehoshua ben Perachya says: "Make a teacher for yourself, and acquire a friend for yourself; and judge everyone favorably.” Pirkei Avot 1:6

JUDAIC RESOURCE TEACHER

Dawn Kowal is the Early Childhood Judaic Resource Teacher. Dawn visits each classroom often and more often as requested by teachers, to present Judaic enrichment activities on themes such as: Pirkei Avot, Shabbat (Sabbath), Tzedakah (giving of money for charity), Mitzvot (acts of kindness) Mezzuzah, Holidays, Bible Stories and Hebrew. These activities will be presented through, stories, flannel board, puppets, songs, drama, games, etc. Dawn is a fun, dynamic and enriching addition to our program and instills positive reinforcement of Jewish learning.

Hillel says: "Do not separate yourself from the community....” Pirkei Avot 2:5

JEWISH HOLIDAYS

The Weinstein JCC Early Childhood Program is pleased to offer a children’s program which is rich in Jewish culture, tradition, and values. The Jewish holidays with all their traditions are an integral and on-going part of the educational program for your child. See the 3-Year Calendar in Appendix VII for Jewish Holiday closings. We celebrate the Jewish holidays through hands-on sensory experiences, i.e. stories, dramatics, songs, dances, cooking, music, creative art, and special visitors.

Foods appropriate to each holiday are prepared by the children and eaten by the children. Creative art projects decorate the rooms and halls to give a holiday feeling to the entire Center. The music program emphasizes holiday songs in Hebrew and English.

To strengthen family life, the parents are welcome to join the children for Shabbat celebrations and special family events. Teacher-made and commercial materials and games relating to Jewish themes are integrated into the daily activities.

Shabbat

The Jewish Sabbath starts at sundown every Friday and lasts until sundown on Saturday. It is written in the Torah that G-d created the world in six days and rested on the seventh...giving us Shabbat. In many Jewish homes the tradition of lighting candles and saying prayers to welcome the Sabbath are observed.

Although Shabbat lasts from sundown Friday to sundown Saturday, all the children in our program join together on Friday mornings to celebrate the coming Shabbat. Traditional prayers and Shabbat songs and stories make this weekly program special.

Each preschool classroom celebrates Shabbat on Friday mornings and eats challah (braided bread). Afternoon childcare classes may participate in an additional warm community Shabbat experience.
**Havdallah**
Traditionally, *Havdallah* takes place on Saturday evenings after sundown. At the Weinstein JCC, preschoolers celebrate *Havdallah* on Monday mornings. Children sing songs, say blessings, and light the braided candle and smell traditional spices. *Havdallah* is our way of saying good-bye to Shabbat and welcoming the new week.

**Rosh Hashanah**
This two-day holiday is the Jewish New Year and usually falls in September. It is a time of personal reflection of our past and future behavior. The children enjoy apples and honey, which are symbolic of hope for a sweet year. We also invite a local beekeeper to lead lessons with the children showing all the ways that bees are important to us and are our friends.

**Yom Kippur**
This is the most solemn holiday of the year -- the Day of Atonement. It is an adult fast day and a day of prayer. We discuss with the children how to be the best we can be.

**Sukkot**
The “Feast of Tabernacles” recalls the journey of the Jews from Egypt to the Promised Land when they lived in *sukkots* (booths). It is also a harvest holiday symbolized by the *Lulav* (palm branch) and *Etrog* (citron) which are intricate parts of the celebration. We decorate our JCC Sukkah with fruit and greenery, and enjoy our snack inside.

**Shemini-Atzeret**
This holiday occurs on the eighth day of *Sukkot* and is considered a holiday in itself. It is a solemn day with special prayers for rain (*geshem*).

**Simchat Torah**
On this joyous holiday, we complete the reading of our Torah for the year and immediately start reading the Torah all over again. This is a happy holiday for children as they march around the Weinstein JCC singing songs and carrying flags.

**Chanukah**
“The Festival of Lights” celebrates the Maccabean victory, when brave Judah Maccabee and his small band of followers saved the Jewish Nation from the Syrians. For the eight days of *Chanukah*, the *chanukiah* (an eight-branched candelabra) is lighted to recall their rededication of the Temple in Jerusalem and to give thanks for the great miracle of the survival of the Jewish people. At school, we light the *chanukiah* and say the blessings, prepare potato *latkes* (pancakes), as well as other traditional activities.

**Tu B’Shevat**
On *Tu B’Shevat* we celebrate the New Year of the Trees. The Jewish calendar, with all its holidays, is tied to the cycle of growing things. As Jews, we have a kinship with the trees, especially the fruit trees. Trees are a symbol of life. Children plant trees, as well as collect money for trees in Israel and sample a variety of fruits and nuts.

**Purim**
*Purim* is the jolliest of all the holidays, commemorating how Queen Esther and her uncle, Mordechai, saved the Jews of Persia from a plot by the Prime Minister, Haman, to destroy them. This day we eat *hamantaschen* (triangle shaped cookie), which the children enjoy making. During the reading of the *Megillah*, the children make loud noises by shaking groggers and stamping their feet whenever the name Haman, the villain, is read. The children send *shalach manot* (gifts) to be shared with friends and the less fortunate.
Passover
Passover (Pesach) commemorates the experiences and ordeals of slavery in Egypt, and the Exodus following them. The Seder is a special family meal. Prayers and songs from the Haggadah (the story of Passover) are read, and certain foods are eaten. The best known of these is matzah, or unleavened bread. Children may participate in seders with their class.

Lag B’Omar
This holiday recalls the struggle of the Jews to regain their independence as a Jewish nation. The Romans, ruling Palestine, banned the study of the Torah and Jewish literature. Jews continued to learn and study in secret. They studied in caves and forests under the pretense of hunting and hiking. Today, however, the holiday celebrates Jewish survival. At school, we celebrate with outdoor activities.

Yom Ha’Atzmaut
Yom Ha’Atzmaut is the independence day of modern Israel. We celebrate by learning songs and Israeli dances, hearing stories, and learning about the land of Israel, making Israeli flags and preparing and eating falafel. The children will participate in a “pretend” trip to Israel.

Shavuot
A thanksgiving and harvest festival, also commemorates the giving of the Ten Commandments on Mount Sinai. Known as the “Feast of the Weeks,” Shavuot is celebrated seven weeks after Passover. It is a custom to decorate the house with plants and flowers. The green recalls the green mountain of Sinai where Moses received the Commandments, as well as the fruits of the ancient harvest festival.

More detailed information about your child’s classroom activities for these holidays, as well as activities which expose your child to Jewish values, will be sent home in the weekly newsletter and daily communications.

At the Dora L. Lewis Family and Child Development Center all Jewish and national holidays are observed. While we recognize and respect that some of our families celebrate Halloween, Christmas, Valentine’s Day, St. Patrick’s Day, and Easter, the Weinstein JCC Early Childhood Program will not observe these holidays.

J. REGISTRATION PROCEDURES

The Weinstein JCC Early Childhood Program does not discriminate on the basis of religion, race, or sex.

REGISTRATION IS DIVIDED INTO THREE SESSIONS.

Session 1
Registration is open to children currently enrolled in Preschool and to their siblings.

Session 2
Registration is open to new students whose siblings are “graduates” of the Preschool, those children eligible during Session 1, to new students whose families are Weinstein JCC members as of September, 2018, children of Great Beginnings who have been enrolled since September, 2018, and those enrolled in Camp Ganim, 2019.
Session 3
Registration begins for all students who are NEW to our program. A waiting list is maintained to fill any openings that become available during the school year. Waiting lists do not carry over from year to year. Placement of children is at the Early Childhood Director’s discretion.

Before enrolling children in the Early Childhood Program, we encourage parents and children to visit, meet the directors, and see the teachers and children actively participating in activities. Come and spend time with us.

REQUIRED FORMS
All families will receive information about the preschool and childcare programs before school begins. Included with the information packet will be a variety of forms to complete and return before school begins. All personal family and child information is kept confidential in a lockable file. Information will only be shared with the family of the child, designated Weinstein JCC staff, and representatives from Virginia Department of Social Services (VDSS).

Each student must have on file in the Early Childhood Office before the child enters Preschool the following completed and signed forms:
1. Registration Form
2. Medical Form signed by physician
3. Medical Emergency Authorization Form
4. Confidential Child Information Form signed by parent/guardian
5. Developmental form
6. Discipline Statement
7. Permission form (neighborhood walks)
8. Copy of Birth Certificate (proof of age)
9. Other Childcare Previously Attended Form
10. Suspected Child Abuse/Neglect Reporting Procedure Form
11. Health and Safety Information Access form
12. Health Insurance form
13. Extremely Important Information About My Child form
14. Illness Notification form
15. First Aid Authorization
16. Visiting Specialists
17. Photo Release form

K. ASSESSMENT OF CHILDREN’S DEVELOPMENT

The teachers will routinely assess the growth and physical, social, emotional, cognitive and language development of each child while attending the Weinstein JCC Preschool using a variety of formal and informal measures such as observations, check lists, anecdotal records and individual assessment scales. The formal assessment tool used at the Weinstein JCC Preschool by our teachers was developed under the guidance of Donna Peters, Early Childhood Director and Lisa Plotkin, Early Childhood Curriculum and Professional Development Director and representatives from the Early Childhood Faculty. Teachers within their age level meetings have collaborated, trained, and learned to interpret assessment procedures and results. Assessment will occur within the natural setting of the classrooms and playgrounds during the children’s ongoing interactions with others, play and use of the materials and planned activities. The information from the assessments for each child, parent feedback and screenings will be integrated with the curriculum goals and planning to support individual learning styles and needs, in addition to overall program improvement.
**USE AND PURPOSE OF ASSESSMENT**

The assessment strategies used by the preschool staff is a guide for the classroom teaching team’s (teacher and assistant teacher) weekly planning of activities. The information gathered from formal and informal assessments is used to meet the individual child’s developmental needs and interests, as well as the overall group. By meeting regularly to discuss each child’s developmental progress, learning and the interests of the children, the teaching staff can identify possible developmental delays and the need for possible early intervention.

* For more information see Supporting All Children in the Classroom on page 53.

By regularly reviewing the assessments/observations of the children, the teachers can monitor and adapt their teaching strategies. The teachers will also use the information from the assessments and related discussions to make suggestions to the Director for classroom/program wide improvements.

**EVALUATION PROCESS**

The evaluation process will be used to assess each child’s overall development and growth over the course of the school year.

Within the first three months of placement in a class for the school year, the overall development of each child will be formally and informally evaluated using an assessment scale. The same assessment scale will then be used again towards the end of the school year in the spring prior to the child moving to the next age group. Any developmental concerns indicating possible delay determined from the assessment will be discussed with the parents. The teacher will offer the opportunity for parents to share their view of their child’s learning and development at home and at school in addition to expressing any concerns about their child or the program. Whenever an area of significant concern emerges, the teachers or the Director will make recommendations and/or assist the parents or guardians with professional contacts for further assessment.

The content of children’s files is confidential and must be kept in a locked file cabinet. It may be shared only with the family of the child, designated Weinstein JCC staff, and representatives from Virginia Department of Social Services (VDSS) the Health Department, and NAEYC. Written permission must be obtained from the child’s family to authorize any other individual to have access.

**CLASSROOM ASSESSMENT PORTFOLIOS**

Assessment Portfolios, consisting of work samplings, observations, check lists, anecdotal observation, dictations and other methods to assess and record development and abilities, will be kept by the classroom teacher each year for each child and updated regularly during the year. The Assessment Portfolios will be shared with the family at parent/teacher conferences and as requested at other times during the year. The Assessment Portfolios are kept in a locked cabinet in the classroom and may be sent home at the end of each school year. A sampling of the items in the Assessment Portfolios will also be kept in the child’s permanent file in the office for review by the staff as needed.

Parents are given the opportunity to provide their input regarding their child’s interests, strengths, and abilities emerging at the beginning of each school year on the Family Information Form in addition to prior to and during the parent-teacher conferences. The input from the parents is combined with the other information to guide the teachers in their planning for activities to meet the individual developmental needs and interests of each child and to determine the effectiveness of their teaching strategies.
METHODS OF FORMAL COMMUNICATION

Methods of formal communication about your child’s transition to school, development and learning will be as follows:

- Teachers will make phone calls home after the first few weeks of school
- Parent-Teacher conferences will be held in October
- Written assessments sent home in the winter and spring
- Spring Parent-Teacher conference (parent or teacher’s request)

L. ADJUSTMENT AND TRANSITIONS

ADJUSTMENT TO PRESCHOOL AND CHILDCARE

We are excited to welcome you and your child to the preschool. Below are a few tips for easing your child into the program.

Separation anxiety is a real fear for some children. There are many reasons that children are afraid to leave the parent or to have the parent leave them. There are many degrees of anxiety… from simple clinging, quieter than usual, to tears, or temper tantrums.

The teachers and directors have had a lot of experience dealing with children’s adjustment processes and separation anxiety is very common among young children, particularly toddlers and two year olds. Parents should not be embarrassed or worried if their child cries when they leave.

When your child enters a new situation, he/she may feel uneasy. A new place, new people, separation from parent, and the number of other children can all be stressful to a child. Be sure to bring your child to the Weinstein JCC before he/she starts. It’s important for your child to know what we look like and become familiar with the new surroundings.

You can help by not being upset during the first few days if your child clings to you when you leave him/her. Be sympathetic and understanding. Discuss the experience with your child at home.

TALK WITH YOUR CHILD ABOUT SCHOOL BEFORE THE FIRST DAY

Go through the daily routine, who will be there and what he/she will be doing. Always stress the fact that one of your child’s parents, guardians, nanny or babysitter will always come to pick him/her up. Tell your youngster why he/she is going to school. This should refer to the pleasant things about school, your job, etc. Try avoiding the word “send,” for it implies that your child is being “sent away.”

As the teacher helps move your child into an activity, your presence will be less vital. Teachers are trained to help ease a child’s separation from his/her parent. Please listen to the teacher and leave if asked. Many times a child will be more likely to get involved with other children when parents are not around. Never slip away without telling your child goodbye and reassuring him/her that you will return. Feel free to telephone Donna Peters (545-8617) or Barbara Wise (545-8616) or Carol Smoot (545-8615). If you have concerns about your child’s adjustment or to check on your child, we are happy to assist you in any way we can. Once a child is settled and secure in his/her surroundings, we encourage you to come, visit, and be an active part of your preschooler’s life.
DAILY TRANSITIONS FOR CHILDCARE
For children who arrive before 8:55 a.m. and stay past noon, there will be some staff and room transitions that occur. Children enrolled all day may have a different room and teaching staff for preschool and childcare. It is our intention to minimize transitions as much as possible for your children. To create few transitions and to develop warm interactions with their peers and teachers, we try to maintain consistency in the children’s child-teacher relationships. Your child will keep the same preschool teachers during the school year (September through May). Eight of our nine childcare classrooms are family grouped. They include children 2 years old through young fours or 3’s & 4’s. One childcare classroom is for the children who are older fours. Children in childcare could remain with their same childcare teacher until they “graduate” up to the older four year old classes. Please call the office if you would like more details about your child’s individual transitions. It is also helpful to write notes regarding specific instructions about your child’s day. These notes can then be passed on to the other staff members caring for your child and the information will be followed through and shared amongst the appropriate staff.

SAMPLE DAILY SCHEDULES
This schedule is modified to fit the age and needs of the various age groups and should be viewed as a flexible tool since needs may vary from day to day and from month to month. The most important thing in scheduling is being sensitive to the needs of the children.

SAMPLE DAILY SCHEDULE
(Specific schedules vary from class to class.)
TWO YEAR OLD PRESCHOOL PROGRAM

9:00 AM Arrival

9:00 – 10:00
Free Exploration: Work and Play
Large Muscle: Push-Pull toys: Blocks
Small Muscle: Puzzles; Pegs; Easel Painting; Sensory Play - Rice/Water Table
Dramatic Play
Cooking
Art Exploration
Small Group Activities (with teacher/ assistants)
New Concept Games: Shapes; Numbers; Colors
Recognition - Matching Experiences
Themes

10:00 - 10:15 Snack

* When the weather is nice, we are outside on the playground from 5:00 – 5:30 p.m.
  When we come inside at 5:30 p.m., we get cleaned up and have group time until 5:45
  p.m., followed by indoor play until 6:00 p.m.
M. ADDITIONAL ENRICHMENT PROGRAM OFFERINGS

AQUATICS PROGRAM
The Childcare Program offers one afternoon per week of swimming lessons for the children for three sessions during the school year. These swim sessions are instructed by qualified swim instructors and help the children to learn swimming techniques, water safety and also help the development of gross motor skills. Children ages three and above and toilet trained will participate.

If parents do not give their children permission to participate in the swim program and later change their decision, the child may begin swimming when a new session begins or when space permits. As the child engages in these activities, many opportunities occur for social, cognitive, emotional, and physical learning at the child’s own level and interest. If you have any questions or concerns about the aquatics program, please contact the Aquatics Director at 545-8640.

Childcare parents are encouraged NOT to schedule an Enrichment Class or Sports Class on swim day. We want each child rested and ready for their swim class. Too many activities in one afternoon can be overwhelming for a young child. Thank you for your cooperation in this matter. If you have any questions about this please contact your child’s afternoon teacher.

LUNCH AND FUN / ENRICHMENT CLASSES
The afternoon enrichment program offers a variety of special interest classes for children in our 2, 3, and 4 year old program. These classes are offered in addition to our regular preschool and childcare programs. Registration for these classes takes place three times during the school year. A description of the classes and fees will be sent home before each fall, winter, and spring session. Registration begins as soon as the information is distributed. You may confirm your child’s registration status by calling the appropriate Weinstein JCC department (e.g. Preschool, Sports, Dance, Aquatics, etc.). To insure that your child gets to his/her class, parents must inform the preschool teacher in writing of their child’s schedule.

Parents must sign a waiver giving permission for their child to leave the Licensed Child Care Development Center and participate in the class.

LUNCH BUNCH
An exciting program for children ages 2 - 5 who are ready for a longer day. Initial registration for Lunch Bunch is in September; however, children may enroll during the year provided space is available. Lunch Bunch runs from 12 – 2:00 PM.

GREAT BEGINNINGS
A play group for parents and children ages 1 - 24 months provides a first time group experience filled with recreational activities including music, stories, and free exploration. Parents will have opportunities for socialization and discussion. Registration for Great Beginnings takes place four times during the year (fall, winter, spring, and summer). This group meets on Wednesdays, from 9:30 – 11:00 a.m. Registration forms are available in the preschool office and online at weinsteinjcc.org.
N. PARENT INVOLVEMENT
Many opportunities exist for all parents to become involved in our preschool and childcare programs. Families are welcome visitors at the Dora L. Lewis Family and Child Development Center. Parents and/or guardians are welcome at all times to observe, to eat lunch with their child, to volunteer, or to share a special talent with the children. We encourage your participation and presence! Please communicate with your child’s teachers.

EARLY CHILDHOOD COMMITTEE (ECC)
The Early Childhood Committee is the representative arm of the Early Childhood Department within the Carole and Marcus Weinstein Jewish Community Center. It is responsible for informing policies, reviewing standards, and exploring new challenges. The major goal of this committee is the achievement and maintenance of the highest possible standards for preschool and childcare education.
The Committee is composed of parents with interest in these areas along with professional faculty representatives. The Early Childhood Committee is a unique gathering of concerned individuals ready to tackle problems and serve the needs of its members. Room Parents are automatically ECC Board Members. From staff workshops to teacher appreciation events, from holiday programming to NAEYC accreditation -- it’s a rewarding experience for all! Meetings are typically held on one Wednesday of each month at 7:30pm. If you are interested in joining the EC Committee, please call Donna Peters at 545-8617.

PARENT GROUP ASSOCIATION
The Parent Group Association (PGA) is a branch of the ECC responsible for early childhood fundraising and community service projects. Its leadership coordinates activities which help the Early Childhood Department raise funds to enhance facilities and programming. The association is comprised of parents of preschoolers along with professional staff representatives.

Programs and events such as weekly Shabbat Challah Sales, School Photographs, Plate Project, Hamantashen Café, and Gift Basket Extravaganza are examples of the direct responsibilities of the PGA. The PGA and Early Childhood Committee work closely together to provide enriching, high quality experiences for our children. If you are interested in volunteering with PGA Projects, please contact Barbara Wise at 545-8616.

PARENTS AS VOLUNTEERS
Parents are encouraged to take an active role in the Weinstein JCC Early Childhood Program by sharing their ideas, time, energy, and support. Parents who volunteer come away with the satisfaction of building and contributing to the Weinstein JCC community. Friendships emerge from hours spent working together on a school event, a committee, a fund-raiser, or in the classroom.

Each school year many opportunities exist for parents to become involved. Many special events and fund-raisers are planned throughout the year. These events cannot take place without parents’ involvement. We do expect our parents to volunteer in some capacity for at least 10-12 hours per family per school year.

Volunteering to help with special projects, cooking, helping at holiday parties, sharing hobbies, talents and interests, are wonderful ways to volunteer. Each time your child sees his or her parents at school, his/her world is brought together and he/she feels special.
PARENT MEETINGS AND WORKSHOP SESSIONS
Parent meetings and workshops dealing with child development and related issues will be scheduled throughout the year. Details will be publicized prior to each event.

Attending classroom meetings, Open House, Parent Socials, Back-To-School Night, etc., are important ways in which you can become involved in our school. Sharing knowledge about goals, curriculum, classes, and children all help to enhance your understanding of our Early Childhood Program.

PARENT/FAMILY SOCIALS
As a way to help build positive and meaningful relationships between home and school, each preschool class will plan at least 2 Family Socials during the school year. Room Parents will help plan with the teachers and carry out class socials. Socials will be with the teachers, parents, and children.

The class socials are great opportunities for parents to get to know one another and to strengthen relationships with their child’s teachers. You will learn more about your class’s Family Socials at the Meet the Teacher night event held at the beginning of the school year. Teachers will also host at least one parent/teacher event during the year.

ROOM PARENTS
Room Parents assist in communicating information to parents within the class, help with special activities and school events, and other services requested by the classroom teacher. Room Parents also take turns attending monthly ECC meetings as parent representatives for the classrooms. If you are interested in helping in this capacity, please inform your child’s preschool teacher.

O. HOME - SCHOOL COMMUNICATION

We believe that direct, effective communications are at the heart of a stimulating, safe, caring program for young children. If you have concerns about day-to-day operations, the program, or your child’s care, please feel free to discuss them with staff or the departmental directors.

The Early Childhood Department will make every effort to work with families that speak a language other than English in the home or are bilingual. If needed, a teacher that speaks fluent Hebrew or Spanish can join in with the teacher or director for the enrollment process, parent-teacher conferences, and other meetings as needed. If you need written materials in a language other than English, please let the Directors know and every effort will be made to provide these materials.

There is usually at least one Hebrew and Spanish speaking teacher on staff that can assist a child as needed.

Families that speak languages other than English are encouraged to share with the teachers simple words and phrases to use in conversations while the child is in our care.

MESSAGES FROM HOME
All important messages (a change in schedule, a different person picking up your child, child going with a friend, etc.) MUST BE IN WRITING, DATED, SIGNED, AND GIVEN TO THE TEACHER. Please do not only rely on email communication for messaging teachers during school time.

Please let us know when something is happening which may have bearing on your child such as: a projected move, birth, death, separation, etc. Having this information will enable our staff to better understand your child’s feelings and behavior when he/she may not be able to adequately explain their feelings.
MESSAGES FROM SCHOOL
Many important messages from the Early Childhood Department will be sent home in your child’s backpack, book bag, website and e-mail. Please read each note and email. Notes are all designed to keep you informed about your child, his/her school program, Weinstein JCC activities, and community activities.

NEWSLETTERS
A school newsletter will be sent home by e-mail every Friday. We urge you to read the newsletter as it contains news pertinent to what is going on in your child’s classroom and the school.

KAYMBU STORYBOARDS/DAILY NOTES
Teachers will write several detailed notes per week to you by email through the Kaymbu App. Units of study, projects, and special events are explained. Please read your notes carefully to learn about your child’s preschool classroom.

PARENT - TEACHER CONFERENCES
Conferences with the teacher will be scheduled in October to discuss your child’s development and progress. The teachers will review the informal and formal assessments pertaining to your child. Teachers will be glad to schedule additional conferences at mutually agreeable times. Both parents and guardians are encouraged to participate in parent-teacher conferences. These conferences provide opportunities to understand the uniqueness of your child and to get an in-depth view of your child as part of a group. It is an essential give-and-take experience, which helps teacher, parents, and children. Preschool is closed on this day, childcare is open. Babysitting is available during conference times with advanced registration.

PROGRAM EVALUATIONS
Each year a questionnaire about the Weinstein JCC Early Childhood Program is sent home to parents. This will give parents an opportunity to objectively comment on our program and faculty. We welcome your input! After every preschool enrichment class, evaluation forms are also sent home, to gather your feedback.

A report of the annual evaluation findings will be shared with families, faculty, and the EC Committee. The results of this report will be used as the basis for continuing successful activities and for changing those that need improvement.

PARENTAL CONCERNS
Parental concerns about happenings in the Weinstein JCC Early Childhood Program should be directly expressed to the classroom teacher. If concerns are not addressed satisfactorily, parents are encouraged to contact the Early Childhood Director, Donna Peters or Assistant Director, Barbara Wise. If concerns still exist, parents should contact the Weinstein JCC Chief Operations Officer, Orly Lewis. Parents are always welcome to contact the chairpersons of the Early Childhood Committee to discuss any questions, concerns, or suggestions about the preschool and childcare program.
P. ORIENTATION OPPORTUNITIES

LETTERS OF WELCOME FROM THE TEACHERS.
Prior to the start of preschool, the children will receive a letter from their teachers introducing themselves. The teachers may request specific items to be brought to school during the evening Open House to promote a positive connection between home and school, beginning on the first day of preschool.

PRESCHOOL OPEN HOUSE – August 30, 5:30 – 6:30 p.m.
An Open House is scheduled for all families before the school year begins. At this time, parents and children meet their teachers and visit their classrooms, and families can meet other parents and children.

Items To Be Left At School
Please bring the following items the evening of Open House or on the first day of preschool. These items are to be left in the Preschool (AM) classroom. Please label them.

- A complete change of clothing - shirt, pants, underwear and socks
- A smock for painting
- A box of tissues
- A box of diapers and wipes (for 2 year olds, if necessary)
- A box of wipes (all ages)
- Outdoor gear: rain boots, hat, gloves, jacket, coat – depending on weather and season!

Label All Belongings, Including Box of Diapers
In addition, for children participating in afternoon childcare, please bring the following items the evening of Open House or on the first day of preschool. These items are to be left in the Childcare (PM) classroom.

- A complete change of clothing -- shirt, pants, underwear, socks. This will be a second change of clothing to be left at school.
- A toothbrush (optional)
- A smock for painting
- A box of tissues
- A box of diapers and wipes (for 2 year olds, if necessary)
- A cot-size blanket (crib size fits nicely)

Again, please LABEL everything.
**CHILDCARE ORIENTATION**

A Childcare Orientation program for parents provides an in-depth look at all facets of the childcare program. Childcare Coordinator Sharon Johnson offers 2 opportunities for parents with children in Childcare to meet and discuss our childcare program, review policies, procedures, schedules, etc. Parents have an opportunity to meet their childcare teachers and are encouraged to bring their child to visit their Childcare Classrooms for an afternoon before beginning preschool and childcare. Their childcare teacher will schedule the meeting. Sharon Johnson, preschool teacher, is also the Childcare Coordinator. Sharon is available everyday from 8 am – 5 pm. If you have any questions about our childcare program, please contact her by calling 285-6500 and asking for ext. 8115 or stop by Class Room 6.

**PRESCHOOL PARENT ORIENTATION – Tuesday, August 21, 6:30 p.m.**

A Preschool Orientation will be held in August before the new school year begins. New and returning parents are encouraged to attend (without children). Early Childhood Administrators, Childcare Coordinator and Specialists will review Child-Centered philosophy, Nature Education and Gardening, Schedules, Policies, procedures and transitions.

**MEET THE TEACHER NIGHT – Wednesday, September 26, 7:00 p.m.**

This program provides an opportunity for parents (without children) to learn about our inspiration of the Reggio Emilia Approach, An Ethical Start™ and to go to their children’s classroom and meet with the teachers. At this time, each teacher’s goals, classroom schedules, policies, and activities will be thoroughly explored with the parents. **This is a very important meeting for all parents to attend!**

**PRESCHOOL FAMILY FUN DAY– Sunday, September 16**

The Early Childhood Department sponsors a fun family event in early fall. Parents can bring a picnic dinner to enjoy on the preschool playgrounds. Refreshments and dessert are provided by the EC Department. It is a great opportunity to meet other families and children and most of all a whole lot of fun in a casual, comfortable environment.
Q. EARLY CHILDHOOD FACULTY

Weinstein JCC’s Early Childhood Department is staffed by administrators specially trained in early childhood education. The faculty is sensitive to the needs of children and families and committed to quality Jewish education. Faculty meets regularly to plan programs, discuss curriculum, and share and exchange ideas. Guest speakers often enhance learning at these sessions. These meetings provide an ongoing opportunity for Faculty to assess and evaluate activities and to insure that the Early Childhood Program truly and effectively enriches the lives of our children and families. The Faculty earns a minimum of 26 hours of training in early childhood education and child development each school year as required by State Licensing and NAEYC Accreditation.

Early Childhood Faculty is hired based on academic experience, knowledge of early childhood development, and/or experience in related fields. The Early Childhood Directors hire and supervise staff.

All teaching faculty knows and uses the ethics guideline as stated in NAEYC Code of Ethical Conduct and Statement of Commitment. (See Appendix II)

TEACHER-MENTOR PROGRAM

Every new teacher hired in the Early Childhood Department is matched up to a senior staff teacher who acts as his/her mentor for the year. They meet on a regular basis to review policies, procedures, schedules, child-centered philosophy, classroom management, documentation, questions, etc. The peer mentor system has been a highly successful way to transition a new teacher into our programs. The teacher-mentor program has been developed by the EC Director specifically to meet the needs of the Weinstein JCC’s preschool teaching faculty and the preschool program. The mentor teachers are trained by the EC Director and Early Childhood Curriculum and Professional Development Director as to their role and responsibilities.

JEWISH LEARNING MENTOR

Dawn Kowal, the EC department’s Judaic Specialist sets up regularly scheduled meetings with all new faculty to review the curriculum of An Ethical Start™ program. This is a wonderful opportunity to understand our Jewish education programs. There is a lot to learn and Dawn plans small and large group meetings to meet the needs of the new staff.

* By providing mentor opportunities, the teaching faculty feels more comfortable, confident and supported.

R. EARLY CHILDHOOD ADMINISTRATIVE STAFF AND HOURS

The administrators are available during school hours to talk with you about the program, your child, and opportunities for parent involvement in the Early Childhood Program. Occasionally the administrators may be out of the office. During these times, you may leave a message with 1. Carol Smoot, Early Childhood Administrative Assistant; 2. Sharon Johnson, Childcare Coordinator; 3. A member of the teaching staff; 4. the Weinstein JCC Receptionist; or 5. On the voice mail system. Departmental directors will handle your message promptly.

Donna Peters: (804) 545-8617 or dpeters@weinsteinjcc.org
Lisa Plotkin: (804) 545-8661 or lplotkin@weinsteinjcc.org
Barbara Wise: (804) 545-8616 or bwise@weinsteinjcc.org
Erin Cole: (804) 545-8615 or ecole@weinsteinjcc.org
HOURS OF OPERATION
The Dora L. Lewis Family and Child Development Center is open Monday through Friday, 7:30 AM until 6:00 PM. Children may register for the following time periods.

S. PROGRAM POLICIES

MEMBERSHIP ACCESS CARDS
Our security system protects our children, parents, and faculty. Each family will be issued membership access cards. New families may pick up new cards at the Check-In Desk in the main lobby of the Weinstein JCC. If you need to replace a lost or broken card or want an extra card, there will be a charge of $10.00 per card.

Please use your membership card for **yourself and your child only**. Do not hold the door open for others. Our security system is effective only when we use it properly. When we hold the door open for other adults, we undermine the system. If someone asks you to open the door for him/her, and you do not know them, please contact a staff member or direct the person to the Weinstein JCC main entrance.

If you have forgotten your membership access card please go to the Check-In Desk to get a courtesy access card. You will need to show a photo ID and leave your car keys at the desk as collateral. You may pick up your car keys when you return the courtesy membership card to the Check-In Desk. Please be aware that the Check-In Desk staff will call back to the Early Childhood offices to be sure that you have access to the preschool if they do not know you.

ADDRESS, TELEPHONE, WORK CHANGES
All changes in family address, telephone number, or work location must be reported promptly in writing to the Early Childhood Department. **Emergency telephone numbers must also be kept current and will be updated quarterly.**

DROP-IN CHILDCARE POLICY
Drop-in childcare is available in emergency situations at the discretion of the Director or Assistant Director, where space is available. Drop-in rates will apply.

FEES - PAYMENT, FINANCIAL ASSISTANCE, LATE CHARGES, ENROLLMENT CHANGES, REFUNDS
A non-refundable $225 registration fee for preschool must accompany each child’s application. Weinstein JCC membership is a prerequisite. 2018 – 2019 membership dues and other program fees must be paid in full prior to acceptance to the Early Childhood program **unless a payment plan has been confirmed with the Weinstein JCC Accounting Department.**

Financial Assistance
Limited funds are available for scholarship assistance. Assistance is provided based on a family’s financial situation and scholarship funds available at the time. Applications for scholarship assistance must be submitted at registration in the spring of each year. All available assistance will be distributed at this time. The scholarship process is highly confidential and processed jointly with Jewish Family Services. Contact Melissa Bunce for more information at mbunce@weinsteinjcc.org.
Late Charges
Preschool ends at 12:00 noon. Please be sure to pick up your child on time. Youngsters truly enjoy their preschool experiences when they know their parent or carpool will arrive at the appropriate time. **LATE PICK-UP POLICY AND LATE FEES – SEE APPENDIX IX**

If you are unexpectedly late, please call the preschool and let us know when you will arrive. **Your call does not negate late charges.**

Enrollment Changes
The Early Childhood Department strives to offer a variety of options in your child’s yearly schedule. We have found that the number of changes a family makes during the year has increased significantly. This has made it difficult to budget appropriately with additional work created for the Accounting Department. Please give serious thought to you and your child's needs when signing up for programs and classes.

The Weinstein JCC will institute a $25.00 charge for changes made in your child's schedule. This charge will be administered under the following circumstances:
- Switching from 12 months to 9 months
- Dropping Childcare
- Dropping Lunch Bunch
- Dropping an Enrichment class
- 1st switch **within the program** will be free (i.e., lunch bunch to enrichment class)

Termination Of Service
Service at the Dora L. Lewis Family and Child Development Center may be terminated in several different ways:

1. Parents may voluntarily withdraw their child with written notification. Parents are responsible for payment for ninety days after the child’s last day unless the space can be filled.
2. Service will be terminated because of non-payment of fees.
3. Repeated violations of rules and policies may lead to termination of service. For example, parents who repeatedly send an ill child to school or who are habitually late to pick their child up will be refused further service.
4. If it is determined by the professional staff of the Center that the child is not benefiting from the program or if we are unable to meet their needs due to medical or behavioral concerns, then service may be terminated.
5. When possible, parents will be given two weeks advance notice of the termination date.

Refunds
Parents are to notify the Early Childhood Director in writing if they are planning to withdraw their child from preschool or childcare. Families are responsible for payment of 3 months of service from last day of attendance from Preschool or Childcare when withdrawing from program, as stated on your preschool application. The $225 registration fee for preschool is non-refundable.

**Vacation and sick credits will not be given for 9-month or 12-month enrollees.**
For twelve-month enrollees, a vacation credit has already been provided in the fee schedule. **Should your child be absent due to illness, injury or special event, fees cannot be refunded.** In order to provide services, faculty is hired by the year and the expenses are incurred whether or not all the children are present each day. Participants must pay the operating costs of the services. There are no make-ups for absences.
T. ARRIVAL AND DEPARTURE PROCEDURES/POLICIES

To ensure the emotional safety of your child at the start and end of their time in our care each day, it is important that each child is dropped off and picked up as smoothly as possible. For that reason, we have several procedures which will help you and also help our faculty to be certain that your child is safe and secure. Please help us by making sure that you are familiar with the following policies:

INDIVIDUAL ARRIVAL

Preschool hours are 9:00 a.m. to 12:00 noon. If children arrive before 9:00 AM, parents are required to remain with them until preschool begins. The Early Childhood directors and teachers will be at the preschool entrance doors greeting the children at 8:55 am. Please do not enter the classroom before 9:00am. This is teacher preparation time and/or pre-registered Early Morning Childcare. The teachers will be ready to greet you and your child at 9:00am. In the morning parents can choose either parking in the parking lot and walking their children into the building and go directly to the classroom or parents may use the carpool drop-off line (no carpool number is necessary in the morning) to drop off their child(ren) and a Weinstein JCC Faculty Member will walk the children directly to the classroom.** This drop-off is ONLY available from 8:55 – 9:10 am. Parents or caregivers may not leave their car and come in. They must remain with the car. If your child arrives at school after 9:15 a.m., please use the main entrance of the Weinstein JCC and after dropping your child off, please report to the Early Childhood Office so attendance records can be updated.

**For the first few days of school, please have your child wear a nametag with teacher’s name, classroom number and carpool number.

INDIVIDUAL DEPARTURE

Preschool dismissal takes place at 12:00 noon. The policy for release of children is as follows:
- A child is released only to a parent or adult designated by the parent in writing (on emergency card or letter written by parent).
- If there is a change in the child’s normal pick-up procedure, parents MUST send a signed note informing us who is picking up the child.
- If a person authorized to pick up a child is unknown to the faculty, we will ask to see the person’s driver’s license in order to match their name.
- If a parent calls to authorize the emergency release of a child, the Weinstein JCC will do their best to verify that the caller is actually the parent.

Please be on time to pick up your child at his / her scheduled departure time. Children may feel anxious and worried when they are not picked up promptly. If an emergency situation arises and you will be delayed, please call the Early Childhood Office so we can provide appropriate care for your child.

PRESCHOOL SECURITY

A Security Guard will be near the Preschool entrance checking your badge and your 2018-2019 sticker from 7:30 – 9:30 am.
The Early Childhood faculty will greet you at the Preschool entrance from 8:55 – 9:10 am.
a Security Guard will be near the Preschool entrance checking your badge and sticker from 4:30 – 6:00 pm.

If you do not have a working badge, please be sure to speak with membership. If you do not have a 2018-2019 sticker, please stop by the Preschool office.
The following is a chart of 12:00 pm individual dismissal. Room 3 & Room 8 pick up is done through the playground entrance and Room 14 is done from inside the building.

Thank you for your cooperation.

**Please do not park in fire lanes or carpool lanes or block entrance or exit lanes.**

**Please remember to drive extra slowly around our playground and parking lot.**

***Cars are NEVER allowed to be parked in the preschool driveway and left to come in and get your child(ren). You must park in the parking lot and come in to get your child(ren).***

**CARPOOL DEPARTURE**

Carpoolers must pull into the carpool driveway where the children will be brought to the car at 12:00 noon. Each noon-time carpool will be given a number. Your carpool number must be displayed prominently (front, right side window).

Carpool drop off and pickup is available when preschool and camp are in session. At other times, parents will need to park in the parking lot and walk their children to the childcare classroom.
AFTER HOURS PICK-UP POLICY
We do not maintain staffing beyond 6:00 p.m. If a parent does not pick up a child before the Weinstein JCC Early Childhood Program finishes the day at 6:00 p.m., the following action will be taken. Each parent and emergency name provided for the child will be contacted. If we are unable to reach any of the emergency contacts, we will use our best judgment to provide appropriate care. If the situation requires outside intervention, we will contact Child Protective Services.

*PLEASE READ LATE PICK-UP POLICY AND LATE FEES AFTER 6:00 P.M.- APPENDIX IX

U. HEALTH – ILLNESS – ACCIDENTS – MEDICATION PROCEDURES & POLICIES

HEALTH AND SICKNESS POLICY
A Commonwealth of Virginia School Entrance Health Form, completed by the child’s doctor to the effect that he/she is healthy with current immunizations is required prior to a child beginning in the Early Childhood Services Program. According to the State of Virginia licensing standards, your child may not attend school if we do not have a medical form on file for him/her.

The health of the children is the combined responsibility of the parents and the school. State of Virginia licensing requires that parents inform the Center within 24 hours or the next business day after their child or any member of the immediate household has developed any reportable communicable disease, as defined by the State Board of Health, except for life threatening diseases which must be reported immediately. Please call the Early Childhood office at 545-8615 to notify the department.

In the event of the child becoming ill at school or exposed to a communicable disease, parents will be notified at once. Once notified that a child is ill, the parent and/or designee must collect the child immediately as we may not allow the child to remain in the program where others may be exposed. Communicable childhood diseases are inevitable in early group situations; however, they can be kept to a minimum if parents will be alert to the usual symptoms before sending a child to school.

The Weinstein JCC Early Childhood Department Staff will always use their best judgment when determining that a child should be sent home. The following are guidelines that are used per the Virginia Department of State Licensing & Virginia Health Department when making a decision.

We are concerned about the health of every child in our program. To ensure the well-being of all children in our school, we strictly enforce the following policies:

The Early Childhood Department defines a temperature at or exceeding 100°. A fever is not the only indication of illness. It is unfair, not only to your own child who is not feeling well, but to the other children and teachers who may become infected when a sick child is at school. Thickly running noses (green discharge may indicate infection), diarrhea, vomiting and signs of conjunctivitis are conditions that must exclude a child from the program. If we feel that a child is not well enough, the parent(s) and/or emergency contact person(s) (if necessary) will be called to come to take the child home. When called, you (or an alternate emergency person) are expected to pick up your child immediately. There are no exceptions to this rule.

In some cases, following a serious illness, a doctor’s release may be requested before the child returns to school.

Bringing a child with any of these symptoms to the Weinstein JCC usually causes other children to get sick. If ALL parents will help by keeping sick children at home, everybody’s children -- including their own will be sick less often.
If your child is not well enough to play outdoors, he or she should be kept home. Outdoor play is an integral part of the day's program, and the children go outdoors daily. Take the weather into account when dressing your child for school. Layering your child's clothing is desirable, so he or she may adjust clothing to maintain a comfortable body temperature.

After your child has been ill, it is important to adhere to the following guidelines when determining whether or not your child is ready to return to school.

1. Mood, appetite, behavior and activity are again normal.
2. No fever for 24 hours or longer (without medication).
3. Antibiotics (if prescribed) have been used for a full twenty-four hours.
4. Vomiting, diarrhea cleared for 24 hours (without medication).
5. Frequent coughing, excessive nasal discharge resolved.
6. Pain (earache, cramps, headache, etc.) resolved.

* If these conditions are not met, you will be required to pick up your child immediately.

**CONTAGIOUS DISEASES**
Parents will be notified if their child is exposed to a potentially contagious disease while at school. Likewise, parents should notify the school if their child has been exposed to, or has a contagious disease, such as conjunctivitis, head lice, ringworm, chicken pox, etc.

**Vomiting**
If a child vomits they will need to be picked up from program. The child must be free of vomiting for 24 hours prior to returning. If a child has acid reflux, or another condition causing vomiting, a doctor's note should be submitted.

**Diarrhea**
If a child has more than one bout of diarrhea in a day then they will need to be picked up from the program. The child may only return to the program after 24 hours being free of diarrhea and off of any medication. If a child is having diarrhea due to an antibiotic or other condition then a doctor's note should be submitted in order for the child to return. Please assess your child each morning to determine if he or she is healthy enough to attend school. Observe whether or not he or she will be able to function within the school environment and please use your best judgment. Teachers will continue to assess the children's health throughout the day and will contact the parents if a child’s status changes. Our goal is to keep the children and staff as healthy as possible!

**Head Lice**
Head Lice are small insects, about the size of a sesame seed, that live on the scalp and feed by sucking blood. Often found in the hair behind the ears and on the back of the neck, head lice cause severe itching. They may also live on the eyebrows and eyelashes of humans. Eggs take about 1 week to hatch. To live, adult lice need to feed on blood. If the lice fall off a person, then they will die within 2 days. The adults’ life span is approximately one month, and eggs can survive on clothing for a month.

Anyone can get head lice. You can catch head lice by coming in direct contact with an infested person’s head or with personal belongings such as combs, brushes, and hats. Head lice can spread as long as lice or eggs remain alive on the infested person or clothing. Itching of the head and neck is common with head lice.
Head lice are diagnosed by the presence of adult lice or eggs. Lice may be difficult to see. They are most commonly seen at the nape of the neck and behind the ears. Nits (eggs) may be seen as specks “glued” to the hair shaft. Nits range in color from yellow to grey.

A person infected with head lice can be treated. Medicated shampoos or crème rinses kill lice. Some medications also kill nits. Permethrin-based medications (such as Nix) are the treatment of choice and may be purchased over-the-counter. Follow package directions closely. Removal of Nits is recommended in addition to proper medication. Fine toothed combs are available to help remove nits from hair. A second course of therapy is sometimes needed.

Infestations can be prevented:
Avoid physical contact with a person who has lice.
Do not share combs, brushes, hats, scarves, ribbons, or other personal items.
Household members and close contacts of a person with head lice should be examined and treated if they are infested.
Exclude children with head lice from school or day care until the morning after treatment is completed IF there are NO NITS.

For your convenience, the following are some lice removal services in the Richmond Area:

- VirginiaLiceremoval.com – 804-337-3124
- Licehappens.com – 804-495-5426
- licedoctors.com – 800-224-2537

UNDER-IMMUNIZED CHILDREN
As required by the Virginia Department of Social Services and NAEYC, parents must provide documentation that the child has received the immunizations required by the State Board of Health before the child may attend school. In the case of a child under-immunized because of a medical condition, supporting evidence must be provided by a licensed health professional; and in the case of a child under-immunized because of religious beliefs an affidavit on Virginia Department of Social Services “Certification of Religious Exemption” form must be provided by the parents. Program staff implements a plan to exclude the child promptly if a vaccine-preventable disease to which children are susceptible occurs in the program.

CHILD PROTECTIVE SERVICES
As required by law, all cases of suspected child abuse or neglect will be reported to Child Protective Services. Staff report any suspected case of child abuse or neglect immediately to the EC Director and/or Assistant Director. They will determine whether to call Child Protective Services.

ACCIDENTS - EMERGENCIES
In case of a medical or dental emergency we will contact parents immediately. At least one staff member who is certified in First Aid and Cardiopulmonary Resuscitation is present at the Weinstein JCC at all times. Should emergency action be needed, staff will provide immediate care; call EMS (911), call the parent and the child’s physician. Bon Secours St. Mary’s Hospital is our primary site for emergency care. A staff person will accompany the child and EMS to the Hospital with necessary Emergency Medical Forms – individual emergency care plans for children with known medical or developmental problems or other conditions that might require special care in an emergency (allergy, asthma, seizures, orthopedic or sensory problems, and other chronic conditions that require medication or technology support) should be on file with the teacher.

Staff will contact you when your child receives any minor injury that requires more than “a hug and a kiss” so you will be aware of the incident. If we do not reach you by phone, a note will be sent home reporting the nature of the accident as well as the first aid given. These incidents will also be logged in our “bump book” as required by State Licensing, located in the Preschool kitchen.
ADMINISTRATION OF MEDICATION TO CHILDREN

If a child requires medication during the day, parents should deliver the medication directly to the preschool office, along with a completed Written Medication Consent Form/CARE PLAN which may be obtained from your child’s teacher or the teacher’s mailbox area. To ensure the safety of all children, NEVER leave medication in the child’s back pack or lunch box.

Only staff that has attended the Medication Administration Training provided by an approved trainer for the Virginia Department of Licensing will be allowed to give medicine.

**Prescription medications** will be administered only when medication is in the original container with original prescription label, with the child’s first and last name, date prescription was filled, directions on how to administer and store medication, and physician’s name, and the name and strength of medication along with the Written Medication Consent Form/CARE PLAN (See Appendix III) completed by your child’s Physician.

**Administration of Certain Over the Counter Medications**
In accordance with NAEYC requirements our program has a health consultant. Lauren Gary, a licensed pediatric health professional that directs the administration of certain over the counter medications, such as first aid creams, antiseptic solutions and allergy medicines. **In order for OTC medications to be administered for first aid purposes, parents/guardians must fill out the consent to administer over the counter medication release form. By signing this form you are giving the staff permission to administer the OTC medication in accordance with the recommendations given by our licensed health care consultant located in the preschool’s first aid kits such as: First Aid cream, antiseptic wipes, Insect Bite relief medication, de-activated charcoal, etc.**

**Other Over the Counter medications**
Except as provided with respect to First Aid Medications above, all other OTC medications such as Children’s Tylenol, Benadryl, Dimetapp, allergy medications, etc – provided by parents – will be administered **ONLY** when medication is in the original container with the child’s first and last name along with the Written Medication Consent Form/CARE PLAN (See Appendix III) completed by your child’s Physician.

No medication will be administered to a child without a completed Written Medication Consent Form/CARE PLAN. Staff will document each dose of medication given and will keep all medications inaccessible to children at all times. It is the parent’s responsibility to retrieve the medication at the end of the day or at the end of the school year.

- Written Medication Consent Form/CARE PLAN is only good for 6 months and must be updated at the end of 6 months if child still needs medication at school, i.e. albuterol, nebulizer, epi-pen.
**Sunscreen Application**

Please apply sunscreen on your child **every day before arriving** to Preschool and/or camp. If you would like sunscreen reapplied during the preschool/camp day please:

1. Send in the original sunscreen container
2. Label the container with your child’s name
3. Be sure to return the bottom of the sunscreen form giving permission for your child’s teacher/counselor to apply sunscreen on your child – **See Appendix XI**

**MAINTAINING A HEALTHY ENVIRONMENT**

See Appendix III (Guidelines for Hand Washing).

The classroom floors, carpets, and bathrooms are cleaned and disinfected by the housekeeping staff on a daily basis each evening. The carpets are cleaned on a monthly schedule in the preschool classrooms and sooner if needed. Teaching staff disinfect the classroom tables, furniture, sinks, faucet and toilet handles and other areas of the classroom on a daily basis and as needed throughout the day. Toys in the two-year rooms and mouthed items are washed, rinsed, disinfected, and left to dry or washed and dried in a mechanical dishwasher daily. Washable toys, pillows, scatter rugs, etc. are washed in the preschool classrooms on a regular basis.

Using the model of Integrated Pest Management, the Weinstein JCC makes every effort to prevent children from being exposed to pest and pesticides. While pesticides protect children from pests, such as insects, rodents and weeds, under some circumstances the pesticides may also pose a hazard to children and staff, pest control practices will involve a variety of non-chemical and chemical methods.

A licensed exterminating company treats the classrooms, kitchen, and playgrounds with pesticides for common household pests on a quarterly basis or as needed. The treatment is always done after school hours and under the supervision of a staff member. Further information about the pesticides and treatment schedule can be obtained from the Facilities Manager Gino Campos at 545-8646.
The entire Weinstein JCC and playgrounds are smoke free.

All rooms that the children use are heated, cooled and ventilated to maintain room temperature and humidity level. Facility systems are maintained in compliance with national standards for facility use by children.

V. BEHAVIOR MANAGEMENT ISSUES

DISCIPLINE POLICY

Staff encourages developmentally appropriate independence in children by using positive techniques of guidance, including redirection, anticipation and elimination of potential problems, positive reinforcement and encouragement rather than comparison or criticism. Staff abstains from corporal punishment or other humiliating or frightening discipline techniques. Persistent refusal to cooperate in cases of biting and inflicting bodily harm to other children results in use of “Time Out.” Consistent clear rules are explained to the children and understood by the adults. Discipline means teaching not punishing. The staff will be proactive in regard to discipline.

Any strong concerns will be communicated to the parent, as well as a plan developed with parent input as to what will be done in the future to encourage positive behavior and relationships. In the event a child’s behavior is unacceptable and out of control, the child’s parent will be contacted immediately, and the parent may be asked to pick up their child. Parents are encouraged to give the staff any suggestions or insight regarding their child.

If behavior issues become too overwhelming for the child or staff termination may be an option.

DISCIPLINE STRATEGIES/TIME OUT

“Time out” can be used in the following ways:

- A child needs time to calm down – staff will try to get the upset/angry child to take deep breaths and relax. Offer to go for a walk, get a drink of cold water. This is a chance for the child to regain composure and rejoin the class.
- A child has behaved inappropriately and been warned of “time out” possibility. Child is seated in a chair, with or near the group of children for a few minutes (2-5 minutes). The staff member dealing with the child says (for example): “We do not use our hand to hit. I have asked you to stop – you need to go to time out for a few minutes.” The staff member walks the child to the chair or couch that is still near the group and in direct vision of the teachers. After the allotted time, the teacher goes back to the child and reviews the situation briefly. The child always gets a “new chance” and joins the class again.
- If the child is experiencing a temper tantrum or is not changing his/her behavior in an appropriate way the teacher may choose to receive help from the Inclusion Staff or EC Directors. Parents will be notified when behavior gets to this extreme. A parent conference may be deemed necessary.
BITING POLICY

Many pre-verbal children go through a time of biting. They bite for several reasons. One, they find the impulse to bite is a natural defense when cornered, not having yet mastered more refined ways of defending and protecting themselves and their wants. Two, the immediate effect of the bite may be so gratifying to the biter, both sensually and dramatically that, for a time, the biter may be inspired to go on a rampage of biting.

We recognize that biting, while it may not be acceptable, is normal and natural for toddlers and not unusual for two year olds and preschoolers. It frequently occurs in groups of children just on the verge of fluent language. Our policies concerning biting:

1. Staff will carefully monitor children.
2. Staff will model appropriate gentle behavior and pre-social play, encouraging children to use words.
3. When a biting incident occurs:
   a. Staff will quickly respond with a clear message to the biter: “No! I won’t let you bite. Biting hurts!” Tone of voice, body language, and facial expression all will clearly express disapproval. Staff will recognize the biter’s feelings: “I know you are angry but I can’t let you bite.”
   b. Staff will comfort the “bitee” with ice, a Band-Aid (if necessary), and TLC until the child is ready to return to play.
   c. Staff will suggest alternatives to biting behavior as appropriate for the age of the children. “Next time, say MOVE!” The seriousness of the incident may need to be reinforced: “No! It’s not funny. Biting hurts. No biting.”
   d. Parents of both children involved in the incident will be notified. Biting is a part of the young child’s normal developmental process. We take a proactive, rather than a reactive approach. Each biting situation will be handled in the manner outlined above. We will not discuss personal information with any parent about a child other than their own. Biting is a frightening but normal part of most children’s development, and we ask you to trust that each biting incident will be handled in a developmentally appropriate and professional manner.
   e. If the biting behavior is not improving or placing others at too high of a risk, termination might be an option discussed with the parents.

W. Children’s Clothing and Outdoor Play

Children should be dressed in comfortable and washable clothing. Clothing which is easy to put on and take off encourages independence at toilet time. Please be aware that children should not wear overalls, belts, onesies, and snap-legged pants since this clothing makes toileting times difficult for children and teachers.

Our program promotes exploration and direct experiences of many kinds. Please understand that this kind of philosophy is not consistent with staying clean and that it helps if children’s clothing for school is selected with this in mind. Please do not send your child to school in clothing that cannot get dirty. The children will be outdoors in all kinds of weather, so be sure that your child has on adequate clothing. Layering clothes for warmth in cold weather is recommended. Wearing sun – protective clothing or applying skin protection with UVB 15+ is recommended during the summer. We encourage the children to play outdoors in all kinds of weather so please send rain or water boots – raincoats, gloves, mittens and hats as needed!
Rubber-soled shoes and sneakers are best for active children. For safety reasons, children may not wear flip-flops, crocs, jellies or cowboy boots with slick soles. Sandals often get sand or rocks in them, boots may be hazardous and dressy shoes are very slippery. Walking and running are a part of a child’s day, and he/she needs sturdy shoes that will not fall off. During the winter months we ask that each child keep at school a pair of snow/rain boots labeled with the child’s name. We want all the children to be able to play outdoors in the snow or when it is wet.

Please do not send jewelry to school. It can inhibit physical movement and can easily be lost. Each child must have a complete change of clothing to be kept at school. All clothing stored at school and all articles of removable clothing (jackets, sweaters, hats, etc.) should be marked clearly with the child’s name. Each child will have a cubby in which outdoor clothing, change of clothing, and other personal items will be stored.

**OUTDOOR PLAY & AIR QUALITY PROCEDURES**

Outdoor play is an important element of the Weinstein JCC Early Childhood Program. Children will play outdoors daily. Children benefit from experiencing many kinds of weather conditions. The American Academy of Pediatrics supports outdoor play even in cold weather. Layering your child’s clothing is desirable during cold weather, so he/she may adjust clothing to maintain a comfortable body temperature. When outdoor opportunities for large motor activities are not possible because of environmental conditions, similar activities inside are provided.

Program staff protect children and adults from exposure to high levels of air pollution. Staff adhere to the Air Quality Index Descriptions when deciding to go outside.

[The Air Quality Index is a measurement of air quality that is calculated from ozone and fine particle pollution measurements over the past few hours. A higher AQI indicates a higher level of air pollution, and consequently, a greater potential for health problems.

<table>

</tbody>
</table>

**Insect Repellent**

When Public Health Authorities recommend use of insect repellents due to a high risk of insect-borne disease, only repellents containing DEET are used. Alternatives to DEET are acceptable when written approval is provided by an individual child’s physician or a public health authority recommends the use of alternative insect repellent registered with the EPA. Staff apply insect repellent, only with written parental permission and insect repellent is supplied by parents and in its original container.
PRESCHOOL
Shoe Safety Policy!!

Please do **not** send your children to preschool in flip flops, boots with slick soles or the newest rage n shoe wear.... CROCS!

**Do’s**
- Heel strap—YES!
- Closed toes—YES!
- Open toes—Parents’ discretion

**Dont’s**
- Flip flops—NO!
- Crocs—NO!
- Open heel—NO!
- Slick-Soled Boots—NO!
FOOD/KASHRUT POLICIES & PROCEDURES

LUNCH, SNACK, KASHRUT
Good, sound nutrition is a must for total development. Through your food presentation to your child, you are shaping eating habits that affect your youngster throughout life. See Appendix VIII for “What’s On My Plate?” a resource from USDA ChooseMyPlate.gov.

Before bringing your child to the Weinstein JCC, make sure he/she has had breakfast. This will provide your child the energy to participate actively and attentively.

We serve a morning snack to all children. An afternoon snack is served to those who stay all day. Snacks are nutritious and are Kosher. On Friday, we serve challah in observance of Shabbat. Monthly snack menus are posted on glass window of the kitchen as well as in the weekly newsletter.

1. Foods served by the Early Childhood Department are kosher and nut-free.
2. We strive to serve foods that are free of high fructose corn syrup and low in sugar.
3. A morning kosher snack is offered to all students in Preschool around 10:00am.
4. If your child stays for lunch, lunch is eaten by 12:30pm. Children in afternoon childcare will be served snack by 3:00pm.
5. Because good nutrition is an important part of our program, we ask parents to provide only nutritious lunches for school.
6. All food sent to school should be pre-cut (to avoid choking) and age-appropriate. Round, hard candy, chewing gum, whole nuts, unsliced grapes and olives, chunks or whole hard fresh vegetables (including carrots and celery), unsliced grape or cherry tomatoes, large marshmallows, taffy, spoonfuls of peanut butter and other foods that are common causes of choking are NOT permitted. Popcorn and pretzels are not served to children under 4 years. Raisins are not served to children under 3 years. These are criteria based on Department of Social Services and NAEYC.
7. In our goal to serve healthy foods we ask that you not send in fruit drinks with lunch. We provide milk and water every day for lunch. Thank you.
8. Please limit the times that you send in pre-packaged lunches and foods as these are highly processed and not as healthy as food in their natural state.
9. All foods and beverages served must be under 110 degrees Fahrenheit in temperature. If food or beverages are 100 degrees Fahrenheit or higher they must be out of reach of the children until cooled.
FOOD POLICIES – KOSHER GUIDELINES

The following dietary guidelines are observed in the EC department. Please ask for help in the EC office if you have any questions. Any food handled in our kitchens or provided by the EC department for our programming will follow these guidelines:

1. Meat products are not permitted.
2. Shellfish is not permitted. Also, catfish, shark, squid are not permitted. Tuna (or any other fish not previously listed) is fine and may be combined with dairy products.
3. Packaged foods sent for lunches must be marked non-meat. For example, Morning Star products - it is difficult to know these are non-meat without the packing label.
4. Always check the package label for the seal or sign of certification. Not all runs of a given product are necessarily kosher. Sometimes certification is discontinued unexpectedly. In some lines, only certain flavors or varieties are kosher.
5. Fresh fruits and vegetables are a healthy treat alternative. Be aware that we do not serve to children under the age of four unsliced grapes, large chunks or whole carrots, unsliced cherry tomatoes, popcorn or pretzels as they can be a choking hazard.
6. Snacks and lunches sent from home are to be packed in closed containers or bags and clearly labeled and dated.
7. The following Kosher symbols are acceptable:

In accordance with NAEYC accreditation requirements and Commonwealth of Virginia Licensing, the Early Childhood Education Department does not serve children younger than 4 years the following foods:

- Whole grapes
- Popcorn
- Pretzels
- Nuts
- Raw peas
- Chunks/whole raw carrots
- Raisins (not to 2-year olds, only)
- Or any foods that can be swallowed whole.

Foods served will be cut into pieces not larger than ½” square for 2 year olds, according to each child’s chewing and swallowing capability.

An important purpose of our program is to expose children to a variety of Jewish customs, traditions and laws. Jewish Dietary Law (Kashrut) is an integral part of our Jewish Heritage. As a Jewish institution, we are requesting that you be respectful of this policy. All foods cooked and served in our program are Kosher and dairy. We operate a kosher dairy kitchen. We ask you observe these guidelines when preparing your child’s school lunch.

Lunch Protocols

- Please keep your child’s lunch box in their backpack.
- Include an ice pack or two in your child’s lunch box.
- Keep their lunch box inside their back pack, or in their cubby if no space in backpack.
- When you pick up your child at the end of the day, make sure you have their child’s lunch box. If it is not in their backpack, please check their Childcare cubby, the refrigerator, or the Preschool lobby (Late Night). Whenever possible, we will continue to refrigerate lunchboxes after lunch if a child does not finish their perishable items (if able to save).
- Please pack a dairy lunch (NO meat), which is high in nutrition and excludes sugar and over-processed foods.
- 2% milk is provided for each child two years and older.
- In the event your child forgets his/her lunch, there will be a $5.00 service charge to make a lunch.
**MENU SUGGESTIONS**
Be sure to provide a protein source, bread source, vegetable, fruit and milk (provided). **For health reasons please avoid food products with fructose corn syrup. See Appendix VIII for “What’s On My Plate?” a resource from USDA ChooseMyPlate.gov.**

*Peanut butter (not spoonfuls)  
Honey  
Wheat bread  
Pita bread  
Whole grain crackers  
Tuna fish  
Eggs (salad, scrambled)  
Vegetables & dip (cut ½-inch square for 2 yr olds)  
Sliced Pineapple  
Granola bars  
Healthy Muffins  
Strawberries, blueberries  
Pudding with milk  
Banana & berry breads  
Raisins (not 2 year olds)  
Sliced Celery w/ peanut butter or cream cheese  
(Sliced ½-inch square for 2 year olds)

Salad (tossed, pasta)  
Cheese (Cheddar, Swiss, etc.)  
Cream cheese  
Sliced Oranges or tangerines  
Sliced Peaches or pears  
Sliced Apples (with peanut butter)  
Peanut butter/banana sandwiches  
Yogurt with fruit  
Quiche (without meat)  
Fish sticks or filets (cut ½”)  
Cheese Pizza  
Spaghetti or noodles  
Low Sugar Canned fruit  
Dried fruit  
Cottage cheese

*SunButter is a nut free alternative. It is made with sunflower seeds and can be purchased at most natural food stores and online at [www.sunbutter.com](http://www.sunbutter.com).

Add your own ideas to this list and make a tedious chore into a fun and creative time for yourself and your child! As you pack your child’s lunch, explain the nutritional value of the foods you include.

**NEVER SEND** glass containers; baby bottles; sippy cups; candy; corn, potato or nacho chips; cheese puffs, doughnuts, meat (not even kosher meat); gum; soda, sugary drinks; lobster, crab, shrimp, and other shellfish; and spoonfuls of peanut butter.

**LUNCH SAFETY REQUIREMENTS**
In order to ensure proper health & safety handling of foods brought from home the following policies will be enforced. These are the requirements established by the Licensing Department of the Virginia Department of Social Services.

1) All lunches need to be dated on a daily basis. This is to make sure that lunches are fresh and safe for your child to eat.

2) All plastic containers or thermoses must also be dated daily.
   - Write date daily on a paper bag lunch or Lunch Box.
   - Use masking tape or round peel off stickers.
   - For your convenience, we have the round stickers available. They are located on the wooden cart right outside the preschool kitchen.

3) All lunchbags and lunch boxes must also have the child’s name clearly labeled in permanent marker on the outside of the Lunch Box in an easily accessible place.

4) Keep your child’s lunch box in their backpack, NOT in the refrigerators.

5) Include an ice pack in your child’s lunch box.

6) Keep their lunch box inside their back pack, or in their cubby if no space in backpack.
7) When you pick up your child at the end of the day, make sure you have their child’s lunch box. If it’s not in their backpack, please check their Childcare cubby, the refrigerator, or the Preschool lobby (Late Night). Whenever possible, we will continue to refrigerate lunchboxes after lunch if a child does not finish their perishable items (if able to save).

8) Please be aware that if a lunch is left in the refrigerator after 24 hours, the contents will be thrown out.

9) Please be sure that lunch boxes/bags and containers are clean and in good condition.

Thank you for your cooperation in following these health and safety regulations.

Parents have an open invitation to come and have lunch with his / her child in the childcare program. Lunchtime is a wonderful opportunity to socialize with your child, teachers and classmates.

We will inform you if your child needs more food for lunch. Uneaten portions of lunch are returned in the lunch box so that you will be aware of your child’s dislikes or changing appetites.

**BRUSHING TEETH**

Children enrolled in Childcare, pre k 9 – 1:30 p.m. class and Lunch Bunch will have the opportunity to brush their teeth. Toothbrushes provided by parents.

**BIRTHDAY CELEBRATIONS**

A birthday is a very special day in the life of a preschooler. We understand families celebrate their children’s birthdays in different ways and some do not celebrate birthdays at all. We recognize and respect these differences. We are also aware that a little bit of excitement goes a long way in groups of young children. We intentionally keep birthday observances low-key. **In our effort to promote healthy eating habits and try to alleviate potential allergy complications, we do not celebrate birthdays with food.** Each child’s birthday will be celebrated in their classroom in order to recognize their special day! While birthday celebrations are often celebrated with food related treats, we as a school would like to encourage birthday celebrations to be a time that the classroom can create a special experience for the child. The classrooms will be having individual celebrations within their own classroom community. The celebrations that the teacher and the children plan for each other will have special meaning and value for their own class.

- Goodie bags, balloons, decorations, and food are **not** part of our classroom birthday celebrations. **Please do not include these as part of your classroom celebration.**

- If your child is having a birthday celebration away from school, we will distribute invitations in school **only** if each child in the class is invited, otherwise, please mail your invitations! Please be considerate of our children’s feelings and comply with this request. A roster with children’s names, parents’ names, emails and telephone numbers is published and distributed in the fall.

- When planning birthday parties, please be mindful that from Friday evening at sundown through Saturday evening at sundown is the Jewish Sabbath. Not all children can participate in activities and events at those times.

Thank you for your understanding and cooperation!
X. OTHER IMPORTANT INFORMATION

INCLEMENT WEATHER
During inclement weather conditions, please call our special Weather Hotline, 285-0422. This will give you our latest news about Weinstein JCC closings/openings. We will also have information on channels 6, 8, 12, and WRVA 1140, B-103.7, and Q 94. We will make our own decisions based on safety for members and staff.

RESTING
Children participating in the afternoon childcare program are required by the Virginia Department of Social Services, Minimum Standards for Licensed Child Care Centers to have a rest period. Older children rest approximately one hour daily, younger children rest approximately one and one half hours. Children staying for afternoon childcare may bring a “sleeping companion” from home such as a security blanket or special stuffed animal. If you bring a sleeping companion, please label it clearly and be sure your child remembers to bring it each day. Baby bottles and pacifiers are not permitted. Parents need to bring a small (crib size) blanket to be kept at school. Cots and sheets are provided. Sheets and blankets will be laundered weekly by the Weinstein JCC. If a child is not asleep after ½ hour they may look at books, color or play quietly on their cot without disturbing others.

PETS
Some classrooms may have a small pet such as a gerbil, hamster, hermit crab and/or fish for the child to observe and help with feeding of the animal. If any child in the room has an allergy related to or worsened by the presence of the small pet, the animal will be removed or moved to another classroom. Parents are encouraged to let the teachers know of any potential allergies.

Pets from home should not be brought to school for a short visit unless it is cleared with the teacher in advance, making sure that it is in good health, current on all vaccinations and under the care of a veterinarian that can document that the animal is suitable for contact with young children. Documentation must be presented to teacher. Pets may only stay for sharing time with the child’s parent and staff supervising the animal the entire time. Teaching staff supervise and instruct children on safe behavior when in close proximity to animals.

Reptiles are not permitted as classroom pets due to the risk of Salmonella infection.

PERSONAL ITEMS FROM HOME
Except for sleeping companions, toys may not be brought to school. Toys have a tendency to get lost or broken and are difficult to share. Candy and gum are not allowed at school at any time.

The children are encouraged to bring in and share items of special interest. Books, pictures, or other items which have educational value are welcomed. We especially enjoy items related to current curriculum themes. Children may bring money for Tzedakah on Thursdays and/or Fridays.
LOST AND FOUND

Labeling all your child’s belongings (coats, sweaters, gloves, hats, lunch boxes, tote basket, smock, etc.) is a great asset in loss prevention. Children and adults should turn in any items that do not belong to them in the preschool office.

Occasionally an item belonging to another child may be accidentally sent home with your child. If you find an item not belonging to your child, please send it back. If you are missing an item belonging to your child, check with your staff as well as the lost and found.

Lost and found articles will be cleared out periodically during the year. Unclaimed items will be given to a charitable organization.

CAR SEATS

To provide optimum safety at carpool time, the following procedures are in effect.

- If you must leave your child’s car seat at the Weinstein JCC, the car seat may be left in the preschool lobby in front of the purple door.
- If there is a change in your regular carpool, the person picking up your child is responsible for getting the car seat before dismissal.
- If your child is brought in individually in the morning and will need a car seat for dismissal, the person bringing your child is responsible for putting the car seat outside the purple door in the preschool lobby.
- Each car seat must be clearly labeled in bold letters with the child’s name and carpool number in a clearly visible place.
- Due to Virginia State car seat requirements, all children going on a field trip must have a safety seat.

The Weinstein JCC is NOT RESPONSIBLE for lost, damaged or missing car seats!

FIELD TRIPS

Each class may take field trips during the school year. Parents will be notified as to the date, time and destination of each field trip in a timely manner. Permission slips must be signed and returned to the teacher prior to the designated trip. Field trips are planned Monday through Thursday, unless Friday is the only available time. Parents are encouraged to join the class to assist on field trips and to possibly drive. Weinstein JCC’s Kids’ Place Vans/Buses may be used for field trips. Vans are driven by authorized and trained Kids’ Place drivers. Completed emergency forms on each child are taken on all field trips. Staff will have cell phones whenever leaving the building, along with each field trip driver and the numbers will be left in the preschool office. Emergency first-aid backpack will be taken on trips. In case of a car breaking down children and adult will be added to other participating cars and/or an additional car will be sent.

TOILET TRAINING

We welcome children toilet trained or not toilet trained into our program at age two. We feel that children need to develop physically and emotionally to the point when they are ready to be toilet trained.

When we feel the child is ready, we work with him/her on bathroom and toilet training, and we expect parents to work with their children at home. First: After a weekend or week of at home training we will support toilet training efforts at school. We do require that all children in our 3 and 4 year old programs are toilet trained unless there is a documented medical reason. You are required to discuss this with the EC Director before placement in a classroom.
If underwear is soiled due to a bowel movement accident, the following procedure will be followed: Feces will be disposed of in the toilet if it is formed enough to fall into the toilet without touching. If it does not come out this way, the soiled clothing with feces will be immediately placed in a plastic bag, sealed and sent home. According to NAEYC and state health and licensing requirements, soiled clothes will not be cleaned or rinsed out. **Sorry for the inconvenience, but we must follow policies in this matter in order to prevent contamination or the spreading of illnesses.**

If you begin toilet training your child, please be sure to tell the classroom teacher so she will be able to reinforce your efforts. Children who are in the toilet learning process should bring several extra pairs of underwear (training pants), as well as two complete changes of clothing (shirt, pants, socks, and underwear). Toilet accidents will be dealt with in a calm, pleasant, and casual manner. Please be aware that children should not wear overalls, belts, onesies, and snap-legged pants as it makes it difficult for children and teachers during toileting times. **Please do not send your child to school wearing “pull-ups” or plastic pants. Cotton training pants help makes the toilet training process successful.**

Y. **Supporting All Children in the Classroom**

Our goal is to always create a successful experience for every child. Some children come to our program with identified needs in specific areas of growth – social, physical, and language. For other children, developmental needs may emerge after they have been with us.

Studies have shown how critical early intervention is and how its positive impact on growth and development occurs during these formative early years. We recognize and embrace the value of early intervention and providing necessary supports, whether they are formal (therapeutic) or informal. It is not the intent of the Weinstein JCC Preschool to label or diagnose children. When a teacher or a parent has a concern about a child’s development or behavior, we take their concerns seriously. It is our responsibility as teachers and caregivers to advocate for the children and parents in our program when needed. We know how important these first years are and as an inclusive program we are dedicated to helping each child reach their potential. We always have your child’s best interest at heart.

We have consultants on staff available to observe in the classroom and/or consult with parents, child, and staff in situations where intervention would be beneficial to the child, family and school. These services may be requested by the Early Childhood Director, Assistant Director, Inclusion/Support staff, teachers and/or parents.

The Support/Inclusion staff routinely observes in the classrooms in order to get to know all of the children in our program. **Teachers may request support staff to observe and provide insight and strategies when they have concerns about a child’s development. Parents will be notified by their child’s teacher when this occurs and will receive feedback from the teacher or support staff.**

Parents, teachers, staff or specialists can initiate a family meeting or if desired a more formal Individual Education-Social Plan (IESP) meeting when there is concern about a child's development. Every effort will be made to have the meeting in a timely fashion.

For children coming to preschool with identified needs and/or receiving special services an IESP meeting will be held as soon as possible.

Every effort is made to connect children to public/private services when appropriate. To augment this process, we strive to coordinate services with a child’s special therapists through direct communication between them and the school.
If a child is receiving therapeutic intervention or undergoing an evaluation it is our expectation that a copy of all reports be provided to the Inclusion/Support team for planning purposes.

Any specialist working with a child is encouraged to work in the preschool setting and to be invited to attend meetings at the invitation of the parents.

**The success of our program is dependent on parent’s participation and cooperation. It is an expectation that parents will work with the EC Department staff as part of a team. Parents are expected to participate in meetings and to collaborate on strategies that can help their child be successful in the preschool program. When it is deemed necessary, the parents, at the parents’ expense, may be asked to provide a one-on-one assistant for their child in order for us to safely and successfully meet that child’s needs. If parents are unwilling to fully commit to early intervention deemed necessary by the Support/Inclusion Staff & Early Childhood Director, termination of services may be required.**

**Meet Our Support Staff:**

**Melissa Bunce**, (MSW, LCSW) Weinstein JCC Director of Inclusion and Support Services, coordinates services to children with special needs who are mainstreamed into our preschool programs. Melissa implements and conducts intake procedures, including the development of Individual Education-Social Plans (IESP) and family team meetings on a regular basis. Parents of a child who has been identified with special needs prior to entering our preschool program will be contacted by Melissa to set up a preliminary family meeting. Melissa will also observe all the classrooms in order to get to know all the children and act as a resource for teachers as needed. Melissa can be reached at 545-8658 or mbunce@weinsteinjcc.org.

**Gini Blostein-Wolf** is the preschool’s Inclusion Coordinator and can be reached it at 285-6500 – ext. 8119 or gblostein-wolf@weinsteinjcc.org. Gini provides assistance to parents, monitors the progress of the IESP goals and objectives for each child, and works with the teachers in their classrooms. Gini will also observe in all the classrooms in order to get to know the children and acts as a resource for teachers as needed. Additional part time staff (supervised by Gini) provide in-class support for teachers and children.

**VISITING SPECIALISTS**

Any observations, assessments or visits by outside therapists **MUST BE** coordinated with the Early Childhood Director or Inclusion Coordinator in order to take place. Any paperwork that parents request be filled out by our staff, **MUST** also be coordinated through the Early Childhood Director, Assistant Director or Inclusion Coordinator.

Every parent should have received and signed off on a letter stating our policy for visiting specialists. The following is a summary of our philosophy and policies.

As early childhood educators, we promote children’s engagement in regular classroom routines. With on-going planning with specialists (therapists, early childhood interventionists and special educators), our teachers are able to ask questions and brainstorm strategies. Staff and specialists collaborate on how to implement strategies within classroom routines. At times therapists will work with their clients within the classroom or may opt to bring them out of the classroom with a peer (or peers) to enhance the social experience.
The Support/Inclusion Program could not meet its goals without collaboration. We believe there must be collaboration between therapy and the instruction occurring in the classroom with other children present and in the context of on-going routines and activities because:

- Children learn skills in places they will use them;
- Children have increased practice opportunities;
- Children’s social relationships are fostered;
- Teachers can expand skills by seeing what specialists do;
- Specialists can see if strategies are working;
- Teachers and specialists can focus on skills immediately useful for the children; and
- Specialists can work with teachers as problems arise.

**Our visitation policy is:**

1. If a child is receiving intervention (speech, medical, occupational and or physical therapy; counseling, educational consultation, etc.), the family should inform the Early Childhood Director (Donna Peters, 545-8617 or dpeters@weinsteinjcc.org or the Inclusion Coordinator Gini Blostein-Wolf, 285-6500x8119) and must complete the Early Childhood Policy for Visiting Specialists form (see Appendix VI).

2. Any specialist coming to evaluate, observe or provide therapy to a child must contact Gini Blostein-Wolf, Inclusion Coordinator at 285-6500 ext. 8119 or gblostein-wolf@weinsteinjcc.org prior to the initial visit.

3. Specialists should enter through the main Weinstein JCC entrance and check in at the reception desk to obtain a pass to the preschool. Each time they visit, specialists are required to sign the Visitors Log located on the wall outside the workroom/Inclusion office across from Room 6.

4. A meeting with the family, preschool staff and the child’s specialists will be scheduled to provide information about the child’s needs and daily routines in order to develop a Preschool Individual Education Social Plan (IESP). Goals and strategies will be identified which will be embedded throughout the child’s preschool day.

**Evaluations, checklists, reports completion policy is:**

1. ALL forms (evaluations, checklists, reports, etc.) that need to be filled out by any of our Early childhood staff for any student being followed by the Inclusion/Support Staff MUST first be brought to the Inclusion/Support Coordinator, Gini Blostein-Wolf. Forms for all other students MUST first be brought to the Preschool Director, Donna Peters, or Assistant Director, Barbara Wise.

2. A parent request letter or a completed release of information form needs to be on file in our preschool office or in the child’s Inclusion file before staff will receive the form.

3. Administrative staff or Inclusion Staff will deliver forms to teachers to be completed and will return them to parents or agencies as requested.

4. Remember: Teachers will only fill out forms received from administrative inclusion staff.

**Z. Community Resources**

The Early Childhood Department constantly strives to provide updated training for our staff and maintain current practice for all our students, including American Red Cross First Aid and CPR training and Virginia Departments of Social Services/Health Medication Administration Training.
COMMUNITY ORGANIZATIONS

CHILDREN’S HOSPITAL OF RICHMOND at VCU
This specialty pediatric facility serving children from birth to 21 is a center for diagnosis and treatment of various medical conditions. A provider of pediatric rehabilitation therapies, some of our students and families receive Speech/Language Therapy, Occupational and Physical Therapy, Counseling, Feeding Clinic, and Medical Services. This agency is a referral source for children whose needs require further investigation and also provides therapy to children receiving early intervention services.

AUTISM SOCIETY OF AMERICA - CENTRAL VA CHAPTER
With over 25 years of non-profit services, advocacy and support to families and professionals involved with autism, this local chapter of the national Autism Society of America is a leading source of information and referral on autism. This regional chapter provides a monthly newsletter to professionals, families and interested individuals as well as monthly meetings, a website, workshops, a lending library, support and educational information for families or anyone interested in autism spectrum disorder. Workshops and classes sponsored by this agency have been helpful resources for information, networking, and advocacy for the parents of our students on the autism spectrum and have also provided training opportunities for our teaching staff.

COMMONWEALTH PARENTING
For over 30 years, Commonwealth Parenting has helped parents and families develop effective parenting capabilities through education, support, and skill development. Their family educators are a referral resource for educational classes, individual consultations, community speakers, and educational and developmental assessment.

INFANT and TODDLER CONNECTION OF VA (Richmond and Metro areas)
Under the umbrella of this agency, local early intervention (EI) systems in the local counties and city implement the Part C program for infants and toddlers with disabilities and their families. By delivering early supports and services to the youngest children (birth through age 2 years) in our program, the therapists are able to train parents and provide strategies that benefit our children with special needs. When EI staff work within our classroom setting, they are able to train our teaching staff. They also play an important role in helping parents during the transition of services to public school or outside providers, as needed at age 3 years. These goals and objectives are then embedded in the children’s classroom routines in our program.

GREATER RICHMOND AREA ASSOCIATION FOR RETARDED CITIZENS - (ARC) - The Greater Richmond ARC’s Infant and Child Development Services (ICDS) ARC is a not-for-profit service provider that serves individuals with disabilities through their life span in partnership with their families. The ICDS component provides specialized rehabilitation services for children from birth through adolescence who are at risk for or have developmental delays or disabilities or who suffer from an injury that adversely affects development. On-site at ARC or off-site in the children’s homes or other community settings such as our preschool, ICDS provide specialized services staff including pediatric occupational therapists, physical therapists, speech & language pathologists, early childhood special educators and social workers. They provide specialized services in the following areas: sensory integration, developmental assessments, pediatric feeding programs, adaptive equipment assessments, developmental play groups, and individual treatment sessions. As early intervention providers, ICDS staff develops Individual Family and Social Plans (IFSP) that provides goals and strategies that our staff utilizes in the classroom setting to meet the unique developmental needs of the child.
**JEWISH FAMILY SERVICES (JFS)** The Special Needs Collaborative, initially underwritten by United Way, has defined the ongoing relationship between the Weinstein JCC Early Childhood Program and Richmond Jewish Family Services. We have utilized JFS resources for counseling both parents and children, support groups, and training opportunities in the areas of social/emotional, psychological and behavioral development. In the past our inclusion program has partnered with JFS as a site for doctoral graduate student interns, an accredited program supervised by a licensed clinical psychologist.

**RACHEL B. BANKS YOUTH FUND**
The Rachel B. Banks Youth Fund has provided funds for many preschool initiatives for our school. Since 2004, staff and students have benefited from hands-on modeling, ongoing consultation, and training workshops in the areas of play development, gross and fine motor skill development, visual-motor and sensory motor development, drama and music therapy, gardening, Early Childhood Faculty Professional Development, and Kaymbu Communication App.

**PARENT EDUCATIONAL ADVOCACY TRAINING CENTER (PEATC)**
This agency has existed for 30 years as an authority on services for children with disabilities. PEATC provides information, training, and partnerships with educators for parents who need help accessing the rules of special education in order to advocate for their child.

**MEDARVA Pre-K Vision & Hearing Screening Program**
Since 2011 our pre-kindergarten children have participated in a mobile vision and hearing screening program run by W.H.E.E.L.S. Since 2015 these non-invasive screenings have been conducted by MEDARVA Healthcare trained and certified staff using state of the art technology to perform quick and effective vision and hearing screenings for our Kindergarten eligible students. Screening results and recommendations are conveyed to parents along with referral options for further follow-up.
EDUCATIONAL INSTITUTIONS
VIRGINIA COMMONWEALTH UNIVERSITY - SCHOOL OF EDUCATION

- **Department Of Early Childhood/Special Education**
  The VCU School of Education’s Masters Degree Program in Early Childhood Special Education (ECSE) has placed students in our preschool for observation and education internships since 2006. These students work within our Inclusion and Support Program to assist teachers and students through the development of classroom supports, planning strategies, adaptations and modifications to meet our children’s needs. They are supervised by a VCU ECSE Instructor.

- **Partnership For People With Disabilities**
  An affiliate of the School of Education, the Partnership equips individuals with disabilities, their families members, early interventionists, preschool teachers, and others with the awareness, skills, and training needed to further the ability of individuals with disabilities to be fully included in their communities. Our program has been a model inclusive program for the Partnership and has benefited from grants to grow and replicate our model in the surrounding VA communities. Our program and students have been included in their literature and media productions used in publicizing and fundraising for their inclusive message. Parents of several of our students have been selected for in depth training in their advocacy program.

PUBLIC SCHOOL SYSTEMS
Children in our program live in the surrounding city and county areas (listed below). Our Inclusion staff assists parents in seeking services that are provided by their home school division for which their children may be eligible. Public school educational consultants may work directly with a classroom teacher and we promote communication between therapists (speech, occupational and physical, psychologists) and classroom teachers to provide opportunities to embed goals from public school Individual Educational Plans (IEP) into daily classroom routines. At times, school systems provide parents and staff with training opportunities that we publicize to our school community.

- Chesterfield County
- Goochland County
- Henrico County
- Hanover County
- Richmond City

PRIVATE SPECIAL EDUCATION SCHOOLS
The following private schools are in our geographical area and serve children with special needs.

- The Founders Center of Commonwealth Autism
- The Faison School – Autism Center of Virginia (ACV)
- Northstar Academy—for students in grades K-12 who exhibit learning differences
- Riverside School--provides education for children with specific learning disabilities in grades 1-8 (sponsored lecture)
- Spiritos School for Autism Spectrum Disorder and Developmental Delay
GOVERNMENT AGENCIES

VIRGINIA DEPARTMENT OF EDUCATION (VDOE)

- **Division Of Special Education And Student Services**
  Provides resources for schools, parents, educators throughout Virginia relevant to the special education law, disability information, technical assistance, educator training, advocacy, and issues related to implementation of the special education law (IDEA). They partner with other agencies to provide training conferences in a variety of areas including inclusion and early childhood special education.

- **Training And Technical Assistance Center (T-Tac) At VCU**
  This grant-funded program of the VDOE and the Partnership for People with Disabilities provides program training, consultation, instructional and informational resources, workshops/conferences, technological and website resources to promote improved educational opportunities as part of a statewide system of regional T-TAC centers. As Virginia’s demonstration site during the Vanderbilt University’s National Individualizing Preschool Inclusion Project, our program and staff has benefited by working in close collaboration with the VCU T-TAC professionals. Staff training has included best inclusive practices involved in routine based interviews, embedded intervention of goals/objectives, environmental and curriculum adaptations, consultative models, etc. Additionally, our inclusion staff coordinators have participated in T-TAC workshops in other regions of Virginia.

  A few years ago the VCU T-TAC staff arranged for an on-site evaluation of our 3 and 4 year old classrooms utilizing the CLASS evaluation protocol. Follow-up included explanation of the results to the entire staff. Further staff training was planned to review strengths, identify areas that need improvement, and develop strategies to address these areas.

  T-TAC staff have also worked with administrative and inclusion staff to develop their coaching skills. This coaching approach allows supervising staff to assist teachers to recognize what they know and evaluate what they do. Once they develop their ability to reflect and assess their actions, they can develop skills to refine and apply the action in the future.

VIRGINIA DEPARTMENT OF SOCIAL SERVICES

Providing training classes in health and development areas for child care providers within Virginia, establishing state standards for staff education and child development milestones, and implementation of the Virginia Commonwealth Licensing standards for early childhood programs are the responsibilities of this state agency. Local and regional training opportunities are available for our staff. Staff who have taken the medical and healthcare training (MAT) sponsored by this agency oversee the medical and healthcare needs of children in our program. This agency is also responsible for inspections to assure our facility successfully meets Virginia licensing standards.
PRIVATE AGENCIES & PRACTITIONERS

Weinstein JCC resources include referrals to a variety of professionals in the following areas: counseling, neuropsychology, occupational therapy, physical therapy, and speech therapy. Some practitioners work for themselves while others are associated with agencies previously listed. We promote communication among families, professionals and our program staff. All professionals are encouraged to visit during the school day or to attend our inclusion/family team meetings to facilitate the transfer of information that can then be utilized as part of the child’s daily school program.

AA. EMERGENCY PROCEDURES

Emergency backpacks are taken with the class whenever the group leaves the classroom.

   Master Emergency List – is located in the EC Director’s Emergency Backpack.

EMERGENCY CONTACT CARDS  (Confidential Information)
Reminder: It is very important that you have filled out the confidential information form completely so we have your updated phone numbers at all times. If you have not filled out or you need to make changes please see Barbara Wise, EC Assistant Director.

The following guidelines are specific to the EC Department. All Parents and or visitors in the area must participate in all emergency procedures.

TORNOADO AND EXTREME WEATHER EMERGENCY PLAN
If there is a need to seek shelter for an emergency such as a tornado, or other weather related situation, the Weinstein JCC Preschool staff do the following:

Leave classrooms, turning off lights and closing doors (as we would for a fire drill) and count all children. Teachers proceed with their entire class to the lower level of the Weinstein JCC, to the hallway in Kid’s Place. Teachers will receive additional instructions when we meet at the lower level of the Weinstein JCC. Before returning to the classrooms we are required to do another head count.

Teachers will count children and bring attendance sheet and children’s emergency forms notebook with them whenever they leave the building or evacuate to Kid’s Place during weather related emergencies. Emergency backpacks will be taken anytime they leave their classroom.
   • Teachers will continually keep count of the children.
   • One teacher walks in the front of the line and one teacher walks at the end of the line.
   • Cell phones and walkie talkies will be brought with the teacher whenever they leave the building.

Please remember you can call the Weinstein JCC’s Inclement Weather line at 285-0422 to hear any message concerning the above.
**EMERGENCY BACKPACK CONTENTS:**
Every classroom has an emergency backpack which includes the following items as required by State Licensing.

- Pen, pencil, note pad
- Parent phone list
- Emergency List
- 24 oz. bottled water w/ sport top spout
- Large empty garbage bag
- Age appropriate books
- Paper/color sheets
- Crayons/sidewalk chalk
- Game ideas & puzzles
- Diapers & Wipes (if applicable)
- Snack (like Cheerios)
- Flashlight

**Emergency Evacuation Plans**
The Licensing Department for the State of Virginia and NAEYC has mandated that all licensed preschool/childcare facilities establish an emergency plan for evacuation.

All ECC faculty is aware and trained in the evacuation emergency procedures. If you would like to see the written emergency plans please call Donna Peters, 545-8617.

We hold fire drills monthly and evacuation routes are posted in each classroom as well as gym, auditorium and pool area, preschool art room and Sisisky Family Community Rooms.

In the case of an emergency requiring the children and staff to evacuate the building the protocol will be as follows:
The Early Childhood staff and specific Weinstein JCC staff will take children and proceed to a specific off site location. EC staff will have parent contact information with them and will contact parents as soon as possible that the children are off site and safe. Another call will be made when permitted by authorities to let parents know the off-site location and procedures for pick up if necessary.

In order to keep our children safe and secure we will not be giving parents off-site locations in advance. The Weinstein JCC has a few off-site safe locations that will be used in the event of an emergency requiring evacuation. Weinstein JCC EC staff are notified and trained in emergency procedures and protocols and carry emergency bags with them at all times carrying parent contact information, medical information for each child, etc. Most staff also have CPR, AED, and First Aid certification as well.

Staff will not re-enter the Weinstein JCC facility until directed to do so by Police/Fire Authority and/or JCC administrator.

**BB. LICENSING INFORMATION FOR PARENTS ABOUT CHILD DAY PROGRAMS**

The Commonwealth of Virginia helps assure parents that child day programs that assume responsibility for the supervision, protection, and well-being of a child for any part of a 24 hour day are safe. Title 63.1, Chapter 10 of the Code of Virginia gives the Department of Social Services authority to license these programs. While there are some legislative exemptions to licensure, licensed programs include child day centers, family day homes, child day center systems, and family day systems. The state may also voluntarily register family day homes not required to be licensed.
Standards for licensed child day centers address certain health precautions, adequate play space, and a ratio of children per staff member, equipment, program, and record keeping. Criminal records checks and specific qualifications for staff and most volunteers working directly with children are also required. Standards require the facility to meet applicable fire, health, and building codes.

Compliance with standards is determined by announced and unannounced visits to the program by licensing staff within the Department of Social Services. In addition, parents or other individuals may register a complaint about a program which will be investigated if it violates a standard.

Three types of licenses may be issued to programs. Conditional licenses may be issued to a new program to allow up to six months for the program to demonstrate compliance with the standards. A regular license is issued when the program substantially meets the standards for licensure. A provisional license, which cannot exceed six months, is issued when the program is temporarily unable to comply with the standards. Operating without a license when required constitutes a misdemeanor which, upon conviction, can be punishable by a fine of up to $100 or imprisonment of up to 12 months or both for each day’s violation.

If you would like additional information about the licensing of child day programs or would like to register a complaint, please contact the Regional Office of Social Services closest to you.

Appendix I

National Association for the Education of Young Children
Promoting excellence in early childhood education

Code of Ethical Conduct and Statement of Commitment

A position statement of the National Association for the Education of Young Children

Revised April 2005
Endorsed by the Association for Childhood Education International
Adopted by the National Association for Family Child Care

Preamble
NAEYC recognizes that those who work with young children face many daily decisions that have moral and ethical implications. The NAEYC Code of Ethical Conduct offers guidelines for responsible behavior and sets forth a common basis for resolving the principal ethical dilemmas encountered in early childhood care and education. The Statement of Commitment is not part of the Code but is a personal acknowledgement of an individual's willingness to embrace the distinctive values and moral obligations of the field of early childhood care and education. The primary focus of the Code is on daily practice with children and their families in programs for children from birth through 8 years of age, such as infant/toddler programs, preschool and prekindergarten programs, child care centers, hospital and child life settings, family child care homes, kindergartens, and primary classrooms. When the issues involve young children, then these provisions also apply to specialists who do not work directly with children, including program administrators, parent educators, early childhood adult educators, and officials with responsibility for program monitoring and licensing. (Note: See also the "Code of Ethical Conduct: Supplement for Early Childhood Adult Educators," online at http://www.naeyc.org/about/positions/ethics04.asp.)

Core Values
Standards of ethical behavior in early childhood care and education are based on commitment to the following core values that are deeply rooted in the history of the field of early childhood care and education. We have made a commitment to

- Appreciate childhood as a unique and valuable stage of the human life cycle
- Base our work on knowledge of how children develop and learn
- Appreciate and support the bond between the child and family
- Recognize that children are best understood and supported in the context of family, culture, community, and society
- Respect the dignity, worth, and uniqueness of each individual (child, family member, and colleague)
- Respect diversity in children, families, and colleagues
- Recognize that children and adults achieve their full potential in the context of relationships that are based on trust and respect

Conceptual Framework
The Code sets forth a framework of professional responsibilities in four sections. Each section addresses an area of professional relationships: (1) with children, (2) with families, (3) among colleagues, and (4) with the community and society. Each section includes an introduction to the primary responsibilities of the early childhood practitioner in that context. The introduction is followed by a set of ideals (I) that reflect exemplary professional practice and a set of principles (P) describing practices that are required, prohibited, or permitted.

The ideals reflect the aspirations of practitioners. The principles guide conduct and assist practitioners in resolving ethical dilemmas. Both ideals and principles are intended to direct practitioners to those questions which, when responsibly answered, can provide the basis for conscientious decision making. While the Code
provides specific direction for addressing some ethical dilemmas, many others will require the practitioner to combine the guidance of the Code with professional judgment.

The ideals and principles in this Code present a shared framework of professional responsibility that affirms our commitment to the core values of our field. The Code publicly acknowledges the responsibilities that we in the field have assumed and in so doing supports ethical behavior in our work. Practitioners who face situations with ethical dimensions are urged to seek guidance in the applicable parts of this Code and in the spirit that informs the whole.

Often, "the right answer"-the best ethical course of action to take-is not obvious. There may be no readily apparent, positive way to handle a situation. When one important value contradicts another, we face an ethical dilemma. When we face a dilemma, it is our professional responsibility to consult the Code and all relevant parties to find the most ethical resolution.

Section I:
Ethical responsibilities to children

Childhood is a unique and valuable stage in the human life cycle. Our paramount responsibility is to provide care and education in settings that are safe, healthy, nurturing, and responsive for each child. We are committed to supporting children's development and learning; respecting individual differences; and helping children learn to live, play, and work cooperatively. We are also committed to promoting children's self-awareness, competence, self-worth, resiliency, and physical well-being.

Ideals
I-1.1-To be familiar with the knowledge base of early childhood care and education and to stay informed through continuing education and training.
I-1.2-To base program practices upon current knowledge and research in the field of early childhood education, child development, and related disciplines, as well as on particular knowledge of each child.
I-1.3-To recognize and respect the unique qualities, abilities, and potential of each child.
I-1.4-To appreciate the vulnerability of children and their dependence on adults.
I-1.5-To create and maintain safe and healthy settings that foster children's social, emotional, cognitive, and physical development and that respect their dignity and their contributions.
I-1.6-To use assessment instruments and strategies that are appropriate for the children to be assessed, that are used only for the purposes for which they were designed, and that have the potential to benefit children.
I-1.7-To use assessment information to understand and support children's development and learning, to support instruction, and to identify children who may need additional services.
I-1.8-To support the right of each child to play and learn in an inclusive environment that meets the needs of children with and without disabilities.
I-1.9-To advocate for and ensure that all children, including those with special needs, have access to the support services needed to be successful.
I-1.10-To ensure that each child's culture, language, ethnicity, and family structure are recognized and valued in the program.
I-1.11-To provide all children with experiences in a language that they know, as well as support children in maintaining the use of their home language and in learning English.
I-1.12-To work with families to provide a safe and smooth transition as children and families move from one program to the next.

Principles
P-1.1-**Above all, we shall not harm children. We shall not participate in practices that are emotionally damaging, physically harmful, disrespectful, degrading, dangerous, exploitative, or intimidating to children. This principle has precedence over all others in this Code.**

P-1.2-We shall care for and educate children in positive emotional and social environments that are cognitively stimulating and that support each child's culture, language, ethnicity, and family structure.

P-1.3-We shall not participate in practices that discriminate against children by denying benefits, giving special advantages, or excluding them from programs or activities on the basis of their sex, race, national origin, religious beliefs, medical condition, disability, or the marital status/family structure, sexual orientation, or religious beliefs or other affiliations of their families. (Aspects of this principle do not apply in programs that have a lawful mandate to provide services to a particular population of children.)

P-1.4-We shall involve all those with relevant knowledge (including families and staff) in decisions concerning a child, as appropriate, ensuring confidentiality of sensitive information.

P-1.5-We shall use appropriate assessment systems, which include multiple sources of information, to provide information on children's learning and development.

P-1.6-We shall strive to ensure that decisions such as those related to enrollment, retention, or assignment to special education services, will be based on multiple sources of information and will never be based on a single assessment, such as a test score or a single observation.

P-1.7-We shall strive to build individual relationships with each child; make individualized adaptations in teaching strategies, learning environments, and curricula; and consult with the family so that each child benefits from the program. If after such efforts have been exhausted, the current placement does not meet a child's needs, or the child is seriously jeopardizing the ability of other children to benefit from the program, we shall collaborate with the child's family and appropriate specialists to determine the additional services needed and/or the placement option(s) most likely to ensure the child's success. (Aspects of this principle may not apply in programs that have a lawful mandate to provide services to a particular population of children.)

P-1.8-We shall be familiar with the risk factors for and symptoms of child abuse and neglect, including physical, sexual, verbal, and emotional abuse and physical, emotional, educational, and medical neglect. We shall know and follow state laws and community procedures that protect children against abuse and neglect.

P-1.9-When we have reasonable cause to suspect child abuse or neglect, we shall report it to the appropriate community agency and follow up to ensure that appropriate action has been taken. When appropriate, parents or guardians will be informed that the referral will be or has been made.

P-1.10-When another person tells us of his or her suspicion that a child is being abused or neglected, we shall assist that person in taking appropriate action in order to protect the child.

P-1.11-When we become aware of a practice or situation that endangers the health, safety, or well-being of children, we have an ethical responsibility to protect children or inform parents and/or others who can.

**Section II:**

**Ethical responsibilities to families**

Families are of primary importance in children's development. Because the family and the early childhood practitioner have a common interest in the child's well-being, we acknowledge a primary responsibility to bring about communication, cooperation, and collaboration between the home and early childhood program in ways that enhance the child's development.

**Ideals**

I-2.1-To be familiar with the knowledge base related to working effectively with families and to stay informed through continuing education and training.

I-2.2-To develop relationships of mutual trust and create partnerships with the families we serve.

I-2.3-To welcome all family members and encourage them to participate in the program.
I-2.4-To listen to families, acknowledge and build upon their strengths and competencies, and learn from families as we support them in their task of nurturing children.

I-2.5-To respect the dignity and preferences of each family and to make an effort to learn about its structure, culture, language, customs, and beliefs.

I-2.6-To acknowledge families’ childrearing values and their right to make decisions for their children.

I-2.7-To share information about each child’s education and development with families and to help them understand and appreciate the current knowledge base of the early childhood profession.

I-2.8-To help family members enhance their understanding of their children and support the continuing development of their skills as parents.

I-2.9-To participate in building support networks for families by providing them with opportunities to interact with program staff, other families, community resources, and professional services.

Principles

P-2.1-We shall not deny family members access to their child’s classroom or program setting unless access is denied by court order or other legal restriction.

P-2.2-We shall inform families of program philosophy, policies, curriculum, assessment system, and personnel qualifications, and explain why we teach as we do—which should be in accordance with our ethical responsibilities to children (see Section I).

P-2.3-We shall inform families of and, when appropriate, involve them in policy decisions.

P-2.4-We shall involve the family in significant decisions affecting their child.

P-2.5-We shall make every effort to communicate effectively with all families in a language that they understand. We shall use community resources for translation and interpretation when we do not have sufficient resources in our own programs.

P-2.6-As families share information with us about their children and families, we shall consider this information to plan and implement the program.

P-2.7-We shall inform families about the nature and purpose of the program’s child assessments and how data about their child will be used.

P-2.8-We shall treat child assessment information confidentially and share this information only when there is a legitimate need for it.

P-2.9-We shall inform the family of injuries and incidents involving their child, of risks such as exposures to communicable diseases that might result in infection, and of occurrences that might result in emotional stress.

P-2.10-Families shall be fully informed of any proposed research projects involving their children and shall have the opportunity to give or withhold consent without penalty. We shall not permit or participate in research that could in any way hinder the education, development, or well-being of children.

P-2.11-We shall not engage in or support exploitation of families. We shall not use our relationship with a family for private advantage or personal gain, or enter into relationships with family members that might impair our effectiveness working with their children.

P-2.12-We shall develop written policies for the protection of confidentiality and the disclosure of children’s records. These policy documents shall be made available to all program personnel and families. Disclosure of children’s records beyond family members, program personnel, and consultants having an obligation of confidentiality shall require familial consent (except in cases of abuse or neglect).
P-2.13-We shall maintain confidentiality and shall respect the family's right to privacy, refraining from disclosure of confidential information and intrusion into family life. However, when we have reason to believe that a child's welfare is at risk, it is permissible to share confidential information with agencies, as well as with individuals who have legal responsibility for intervening in the child's interest.

P-2.14-In cases where family members are in conflict with one another, we shall work openly, sharing our observations of the child, to help all parties involved make informed decisions. We shall refrain from becoming an advocate for one party.

P-2.15-We shall be familiar with and appropriately refer families to community resources and professional support services. After a referral has been made, we shall follow up to ensure that services have been appropriately provided.

Section III:

Ethical responsibilities to colleagues

In a caring, cooperative workplace, human dignity is respected, professional satisfaction is promoted, and positive relationships are developed and sustained. Based upon our core values, our primary responsibility to colleagues is to establish and maintain settings and relationships that support productive work and meet professional needs. The same ideals that apply to children also apply as we interact with adults in the workplace.

A-Responsibilities to co-workers

Ideals

I-3A.1-To establish and maintain relationships of respect, trust, confidentiality, collaboration, and cooperation with co-workers.

I-3A.2-To share resources with co-workers, collaborating to ensure that the best possible early childhood care and education program is provided.

I-3A.3-To support co-workers in meeting their professional needs and in their professional development.

I-3A.4-To accord co-workers due recognition of professional achievement.

Principles

P-3A.1-We shall recognize the contributions of colleagues to our program and not participate in practices that diminish their reputations or impair their effectiveness in working with children and families.

P-3A.2-When we have concerns about the professional behavior of a co-worker, we shall first let that person know of our concern in a way that shows respect for personal dignity and for the diversity to be found among staff members, and then attempt to resolve the matter collegially and in a confidential manner.

P-3A.3-We shall exercise care in expressing views regarding the personal attributes or professional conduct of co-workers. Statements should be based on firsthand knowledge, not hearsay, and relevant to the interests of children and programs.

P-3A.4-We shall not participate in practices that discriminate against a co-worker because of sex, race, national origin, religious beliefs or other affiliations, age, marital status/family structure, disability, or sexual orientation.

B-Responsibilities to employers

Ideals

I-3B.1-To assist the program in providing the highest quality of service.

I-3B.2-To do nothing that diminishes the reputation of the program in which we work unless it is violating laws and regulations designed to protect children or is violating the provisions of this Code.

Principles

P-3B.1 - We shall follow all program policies. When we do not agree with program policies, we shall attempt to effect change through constructive action within the organization.
P-3B.2-We shall speak or act on behalf of an organization only when authorized. We shall take care to acknowledge when we are speaking for the organization and when we are expressing a personal judgment.

P-3B.3-We shall not violate laws or regulations designed to protect children and shall take appropriate action consistent with this Code when aware of such violations.

P-3B.4-If we have concerns about a colleague's behavior, and children's well-being is not at risk, we may address the concern with that individual. If children are at risk or the situation does not improve after it has been brought to the colleague's attention, we shall report the colleague's unethical or incompetent behavior to an appropriate authority.

P-3B.5-When we have a concern about circumstances or conditions that impact the quality of care and education within the program, we shall inform the program's administration or, when necessary, other appropriate authorities.

C-Responsibilities to employees

Ideals

I-3C.1-To promote safe and healthy working conditions and policies that foster mutual respect, cooperation, collaboration, competence, well-being, confidentiality, and self-esteem in staff members.

I-3C.2-To create and maintain a climate of trust and candor that will enable staff to speak and act in the best interests of children, families, and the field of early childhood care and education.

I-3C.3-To strive to secure adequate and equitable compensation (salary and benefits) for those who work with or on behalf of young children.

I-3C.4-To encourage and support continual development of employees in becoming more skilled and knowledgeable practitioners.

Principles

P-3C.1-In decisions concerning children and programs, we shall draw upon the education, training, experience, and expertise of staff members.

P-3C.2-We shall provide staff members with safe and supportive working conditions that honor confidences and permit them to carry out their responsibilities through fair performance evaluation, written grievance procedures, constructive feedback, and opportunities for continuing professional development and advancement.

P-3C.3-We shall develop and maintain comprehensive written personnel policies that define program standards. These policies shall be given to new staff members and shall be available and easily accessible for review by all staff members.

P-3C.4-We shall inform employees whose performance does not meet program expectations of areas of concern and, when possible, assist in improving their performance.

P-3C.5-We shall conduct employee dismissals for just cause, in accordance with all applicable laws and regulations. We shall inform employees who are dismissed of the reasons for their termination. When a dismissal is for cause, justification must be based on evidence of inadequate or inappropriate behavior that is accurately documented, current, and available for the employee to review.

P-3C.6-In making evaluations and recommendations, we shall make judgments based on fact and relevant to the interests of children and programs.

P-3C.7-We shall make hiring, retention, termination, and promotion decisions based solely on a person's competence, record of accomplishment, ability to carry out the responsibilities of the position, and professional preparation specific to the developmental levels of children in his/her care.
P-3C.8-We shall not make hiring, retention, termination, and promotion decisions based on an individual's sex, race, national origin, religious beliefs or other affiliations, age, marital status/family structure, disability, or sexual orientation. We shall be familiar with and observe laws and regulations that pertain to employment discrimination. (Aspects of this principle do not apply to programs that have a lawful mandate to determine eligibility based on one or more of the criteria identified above.)

P-3C.9-We shall maintain confidentiality in dealing with issues related to an employee's job performance and shall respect an employee's right to privacy regarding personal issues.

Section IV:
Ethical responsibilities to community and society

Early childhood programs operate within the context of their immediate community made up of families and other institutions concerned with children's welfare. Our responsibilities to the community are to provide programs that meet the diverse needs of families, to cooperate with agencies and professions that share the responsibility for children, to assist families in gaining access to those agencies and allied professionals, and to assist in the development of community programs that are needed but not currently available.

As individuals, we acknowledge our responsibility to provide the best possible programs of care and education for children and to conduct ourselves with honesty and integrity. Because of our specialized expertise in early childhood development and education and because the larger society shares responsibility for the welfare and protection of young children, we acknowledge a collective obligation to advocate for the best interests of children within early childhood programs and in the larger community and to serve as a voice for young children everywhere.

The ideals and principles in this section are presented to distinguish between those that pertain to the work of the individual early childhood educator and those that more typically are engaged in collectively on behalf of the best interests of children-with the understanding that individual early childhood educators have a shared responsibility for addressing the ideals and principles that are identified as "collective."

Ideal (Individual)
1-4.1-To provide the community with high-quality early childhood care and education programs and services.

Ideals (Collective)
I-4.2-To promote cooperation among professionals and agencies and interdisciplinary collaboration among professions concerned with addressing issues in the health, education, and well-being of young children, their families, and their early childhood educators.
I-4.3-To work through education, research, and advocacy toward an environmentally safe world in which all children receive health care, food, and shelter; are nurtured; and live free from violence in their home and their communities.
I-4.4-To work through education, research, and advocacy toward a society in which all young children have access to high-quality early care and education programs.
I-4.5-To work to ensure that appropriate assessment systems, which include multiple sources of information, are used for purposes that benefit children.
I-4.6-To promote knowledge and understanding of young children and their needs. To work toward greater societal acknowledgment of children's rights and greater social acceptance of responsibility for the well-being of all children.
I-4.7-To support policies and laws that promote the well-being of children and families, and to work to change those that impair their well-being. To participate in developing policies and laws that are needed, and to cooperate with other individuals and groups in these efforts.
I-4.8-To further the professional development of the field of early childhood care and education and to strengthen its commitment to realizing its core values as reflected in this Code.

Principles (Individual)
P-4.1-We shall communicate openly and truthfully about the nature and extent of services that we provide.

P-4.2-We shall apply for, accept, and work in positions for which we are personally well-suited and professionally qualified. We shall not offer services that we do not have the competence, qualifications, or resources to provide.

P-4.3-We shall carefully check references and shall not hire or recommend for employment any person whose competence, qualifications, or character makes him or her unsuited for the position.

P-4.4-We shall be objective and accurate in reporting the knowledge upon which we base our program practices.

P-4.5-We shall be knowledgeable about the appropriate use of assessment strategies and instruments and interpret results accurately to families.

P-4.6-We shall be familiar with laws and regulations that serve to protect the children in our programs and be vigilant in ensuring that these laws and regulations are followed.

P-4.7-When we become aware of a practice or situation that endangers the health, safety, or well-being of children, we have an ethical responsibility to protect children or inform parents and/or others who can.

P-4.8-We shall not participate in practices that are in violation of laws and regulations that protect the children in our programs.

P-4.9-When we have evidence that an early childhood program is violating laws or regulations protecting children, we shall report the violation to appropriate authorities who can be expected to remedy the situation.

P-4.10-When a program violates or requires its employees to violate this Code, it is permissible, after fair assessment of the evidence, to disclose the identity of that program.

**Principles (Collective)**

P-4.11-When policies are enacted for purposes that do not benefit children, we have a collective responsibility to work to change these practices.

P-4.12-When we have evidence that an agency that provides services intended to ensure children’s well-being is failing to meet its obligations, we acknowledge a collective ethical responsibility to report the problem to appropriate authorities or to the public. We shall be vigilant in our follow-up until the situation is resolved.

P-4.13-When a child protection agency fails to provide adequate protection for abused or neglected children, we acknowledge a collective ethical responsibility to work toward the improvement of these services.

**Glossary of Terms Related to Ethics**

- **Code of Ethics**: Defines the core values of the field and provides guidance for what professionals should do when they encounter conflicting obligations or responsibilities in their work.

- **Values**: Qualities or principles that individuals believe to be desirable or worthwhile and that they prize for themselves, for others, and for the world in which they live.

- **Core Values**: Commitments held by a profession that are consciously and knowingly embraced by its practitioners because they make a contribution to society. There is a difference between personal values and the core values of a profession.

- **Morality**: Peoples’ views of what is good, right, and proper; their beliefs about their obligations; and their ideas about how they should behave.

- **Ethics**: The study of right and wrong, or duty and obligation, that involves critical reflection on morality and the ability to make choices between values and the examination of the moral dimensions of relationships.

- **Professional Ethics**: The moral commitments of a profession that involve moral reflection that extends and enhances the personal morality practitioners bring to their work.
work, that concern actions of right and wrong in the workplace, and that help individuals resolve moral dilemmas they encounter in their work.

**Ethical Responsibilities**

Behaviors that one must or must not engage in. Ethical responsibilities are clear-cut and are spelled out in the Code of Ethical Conduct (for example, early childhood educators should never share confidential information about a child or family with a person who has no legitimate need for knowing).

**Ethical Dilemma**

A moral conflict that involves determining appropriate conduct when an individual faces conflicting professional values and responsibilities.

The National Association for the Education of Young Children ("NAEYC") is a nonprofit corporation, tax exempt under Section 501(c)(3) of the Internal Revenue Code, dedicated to acting on behalf of the needs and interests of young children. The NAEYC Code of Ethical Conduct ("Code") has been developed in furtherance of NAEYC's nonprofit and tax exempt purposes. The information contained in the Code is intended to provide early childhood educators with guidelines for working with children from birth through age 8. Use, reference to, or review of the Code does not guarantee compliance with NAEYC Early Childhood Program Standards and Accreditation Performance Criteria and program accreditation procedures. It is recommended that the Code be used as guidance in connection with implementation of the NAEYC Program Standards, but such use is not a substitute for diligent review and application of the NAEYC Program Standards.

NAEYC has taken reasonable measures to develop the Code in a fair, reasonable, open, unbiased, and objective manner, based on currently available data. However, further research or developments may change the current state of knowledge. Neither NAEYC nor its officers, directors, members, employees, or agents will be liable for any loss, damage, or claim with respect to any liabilities, including direct, special, indirect, or consequential damages incurred in connection with the Code or reliance on the information presented.

**Statement of Commitment**

As an individual who works with young children, I commit myself to furthering the values of early childhood education as they are reflected in the ideals and principles of the NAEYC Code of Ethical Conduct. To the best of my ability I will:

- Never harm children
- Ensure that programs for young children are based on current knowledge and research of child development and early childhood education.
- Respect and support families in their task of nurturing children.
- Respect colleagues in early childhood care and education and support them in maintaining the NAEYC Code of Ethical Conduct.
- Serve as an advocate for children, their families, and their teachers in community and society.
- Stay informed of and maintain high standards of professional conduct.
- Engage in an ongoing process of self-reflection, realizing that personal characteristics, biases, and beliefs have an impact on children and families.
• Be open to new ideas and be willing to learn from the suggestions of others.
• Continue to learn, grow, and contribute as a professional.
• Honor the ideals and principles of the NAEYC Code of Ethical Conduct

1. Culture includes ethnicity, racial identity, economic level, family structure, language, and religious and political beliefs, which profoundly influence each child’s development and relationship to the world.
2. There is not necessarily a corresponding principle for each ideal.
3. The term family may include those adults, besides parents, with the responsibility of being involved in educating, nurturing, and advocating for the child.
4. This Statement of Commitment is not part of the Code but is a personal acknowledgement of the individual’s willingness to embrace the distinctive values and moral obligations of the field of early childhood care and education. It is recognition of the moral obligations that lead to an individual becoming part of the profession.

This statement may be purchased as a brochure, and the Statement of Commitment is available as a poster suitable for framing. See our catalog for ordering information.
# Appendix II

**Written Medication Consent Form/CARE PLAN**

* One form must be completed for each medication. Multiple medications cannot be listed on one consent form.
* The child’s health care provider MUST complete the form in its entirety except for #18 - #28.

<table>
<thead>
<tr>
<th>1. Child’s First &amp; Last name:</th>
<th>2. Date of birth:</th>
<th>3. Child’s known allergies:</th>
</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>4. Name of medication (including strength):</th>
<th>5. Amount dosage to be given:</th>
<th>6. Route of administration:</th>
</tr>
</thead>
</table>

7A. Frequency to be administered: ______ OR ______

7B. Identify the symptoms that will necessitate administration of medication: (signs and symptoms must be observable and, when possible, measurable parameters):

8A. Possible side effects:
- Parent must supply package insert (or pharmacy printout) for a complete list of possible side effects
- Additional side effects:

8B. Parent must supply package insert (or pharmacy printout) for a complete list of special instructions

9. What action should the child care provider take if side effects are noted:
- Contact parent
- Contact prescriber at phone number provided in #3
- Other (describe):

10A. Special instructions:
- Parent must supply package insert (or pharmacy printout) for a complete list of special instructions
- Additional special instructions: (Include any concerns related to possible interactions with other medications the child is receiving or concerns regarding the use of the medication as it relates to the child’s age, allergies or any preexisting conditions. Also describe situations when medication should not be administered.)

11. Reason the child is taking medication (unless confidential by law):

12. Does the above named child have a chronic physical, developmental, behavioral or emotional condition expected to last 12 months or more and require health and related services of a type or amount beyond that required by children generally?

- No
- Yes

13. Are the instructions on this consent form a change in a previous medication order as it relates the does, time or frequency the medication is to be administered?

- No
- Yes. If you check yes, complete #36-37 on the back of this form.

14. List medications given at home:

15. Describe any needed accommodation(s) the child needs in daily activities and why:

- Diet or Feeding: ______
- Transportation: ______
- Classroom Activities: ______
- Naptime/Sleeping: ______
- Toileting: ______
- Outdoor or Field Trips: ______
- Other: ______

**ONLY COMPLETE THIS SECTION (#16-#17) IF THE PARENT REQUEST TO DISCONTINUE THE MEDICATION PRIOR TO THE DATE INDICATED IN #31**

16. I, parent/legal guardian, request that the medication indicated on this consent form be discontinued on ______ Date ______

Once the medication has been discontinued, I understand that if my child requires this medication in the future, a new written medication consent form must be completed.

17. Parent or Legal Guardian’s Signature ______

**SPECIAL EQUIPMENT/MEDICAL SUPPLIES**

| 1. ______ | 2. ______ | 3. ______ | 4. ______ |

This is a double-sided form
### EMERGENCY CARE

CALL PARENTS/GUARDIANS if the following symptoms are present:

<table>
<thead>
<tr>
<th>Symptom 1</th>
<th>Symptom 2</th>
<th>Symptom 3</th>
</tr>
</thead>
</table>

CALL 911 (EMERGENCY MEDICAL SERVICES) if the following symptoms are present, as well as contacting the parents/guardians:

<table>
<thead>
<tr>
<th>Symptom 1</th>
<th>Symptom 2</th>
<th>Symptom 3</th>
</tr>
</thead>
</table>

TAKE THESE MEASURES while waiting for parents or medical help to arrive:

<table>
<thead>
<tr>
<th>Measure 1</th>
<th>Measure 2</th>
<th>Measure 3</th>
</tr>
</thead>
</table>

### PARENT/GUARDIAN MUST COMPLETE THIS SECTION (#18—22)

18. If Section #7A is completed, do the instructions indicate a specific time to administer the medication? (For example, did the prescriber write 12pm)? □ Yes □ N/A □ No. Write the specific time(s) the preschool is to administer the medication: ___

19. I, parent/legal guardian, authorize the child care program to administer the medication as specified in the “Licensed Authorized Prescriber Section” to ___

   (child’s name)

20. Parent or legal guardian’s name (please print): ___

   Date Authorized: ___

21. Parent or legal guardian’s signature (I hereby give consent for my child’s health care provider or specialist to communicate with my child’s child care provider or school nurse to discuss any of the information contained in this care plan.)

---

### WEINSTEIN JCC PRESCHOOL CHILDCARE MUST COMPLETE THIS SECTION (#23—28)

23. Provider/Facility Name: Weinstein JCC Preschool

24. Facility Telephone #: 804-545-8615

25. Date Received From Parent

26. I have verified that #1—22 and if applicable #36—#37 are complete. My signature indicates that all information needed to give this medication has been given to the child care program.

27. Authorized child care provider’s name (please print): ___

   Authorized child care provider’s signature: ___

### LICENSED AUTHORIZED PRESCRIBER TO COMPLETE ALL AREAS UNLESS OTHERWISE SPECIFIED

29. Describe any additional training, procedures or competencies the child care program staff will need to care for this child.

30. Date consent form completed:

31. Date to be discontinued or length of time in days to be given:

   (date cannot exceed 6 months from the date authorized or this order will not be valid)

32. Prescriber’s name (please print):

33. Prescriber’s Telephone number:

34. Date:

35. Licensed Authorized Prescriber’s Signature:

---

36. Since there may be instances where the pharmacy will not fill a new prescription for changes in a prescription related to dose, time or frequency until medication from the previous prescription is completely used, please indicate the date by which you expect the pharmacy to fill the updated order. DATE: ___

   By completing this section the Weinstein JCC Preschool will follow the written instruction on this form and not follow the pharmacy label until the new prescription has been filled.

Appendix III

Guidelines for Hand Washing

Who: All children, teachers, staff, volunteers, visitors and parents remaining in room must wash hands to prevent the transmission of infectious disease and illness. All children who are developmentally able to learn personal hygiene and all are taught hand washing procedures and are periodically monitor.

How:
- Use liquid soap and water
- Rub hands vigorously for at least 20 seconds (count, sing Happy Birthday), rub back of hands, wrists and between fingers, under and around any jewelry and under fingernails.
- Dry hands with a paper towel.
- Turn off the water with a paper towel, not your bare hands.

Children and adults must wash hands:
- Upon arrival or return to the classroom and after coming in from the playground
- After diapering or using the toilet
- After handling any body fluids, including wiping a nose, coughing on hand.
- Before meals and snacks.
- Before preparing or serving food.
- After handling any raw food that requires cooking.
- After playing in water that is shared by two or more people.
- After handling pets and other animals or any material such as sand, dirt or surfaces that might be contaminated by contact with animals.
- When moving from one group to another, involving 2 year olds.

Children with sores on their hands are not permitted to participate in communal water play.

Adults must also wash hands:
- Before and after feeding a child
- Before and after administering medication.
- After assisting a child with toileting, including snapping pants or buckling a belt
- After handling garbage
- After any cleaning

Additionally,

Gloves are not a substitute to hand washing at any time. Gloves must be worn with diaper changes (per licensing) and at all times handling blood or bodily fluids that may contain blood.

Hand washing sinks must not be used to bathe children or clean smeared fecal matter at any time.

In classrooms with two sinks, one should be used for hand washing (within children’s reach) by children and adults and the other for food and art prep. In classrooms with only one sink, staff must clean and disinfect the sink prior to using them to prepare any food.

Use of a hand disinfectant or alcohol based hand rubs are not recommended for settings caring for young children or to be used by children. If these products must be used as a temporary measure, a sufficient amount of time must be used to keep the hands wet for 15 seconds. Since the alcohol hand rubs are toxic and flammable, they must be stored out of reach of children in a locked cabinet.
Appendix IV

WEINSTEIN JCC EARLY CHILDHOOD
Inclement Weather Policy

Inclement Weather Hotline: 285-0422

During inclement weather conditions, please call our Inclement Weather Hotline. This number will give you our latest news about Weinstein JCC closings and openings. We will also have closing information on the following places:

- Channels 6, 8 & 12
- Our website at www.weinsteinjcc.org
- Our Facebook Page: www.facebook.com/weinsteinjcc.org

At the Weinstein JCC, the safety of our children, members, guests and staff is our first priority. For that reason, in the event of severe inclement weather, the hours of operation may have to be modified. The decision to close the facility, delay openings, or close early is made on a case-by-case basis by the Weinstein JCC Executive Team. Because our organization is complex, inclement weather may affect each department and program differently. We endeavor to provide whatever programs and services are possible, given the specific requirements of the program and the effect severe weather can have on the facility, accessibility and staff availability.

If you have a question regarding the Early Childhood Department’s schedules and children’s programming changes, after 6:30 a.m. you can call our front desk at 285-6500. Information will be updated as weather conditions require, so please continue to check back at the above listed channels for further notices.

*Please note we do not follow the Henrico County School schedule for closings.*
Appendix V

The Weinstein JCC Preschool is a fully inclusive early childhood program. We support children with special needs in our program through our Support/Inclusion Program by having regular contact with their families, teachers, and therapists.

As early childhood educators, we promote children’s engagement in regular classroom routines. With on-going planning with specialists (therapists, early childhood interventionists and special educators), our teachers are able to ask questions and brainstorm strategies. Staff and specialists collaborate on how to implement strategies within classroom routines.

The Support/Inclusion Program could not meet its goals without collaboration. We believe there must be collaboration between therapy and the instruction occurring in the classroom with other children present and in the context of on-going routines and activities because:

• Children learn skills in places they will use them;
• Children have increased practice opportunities;
• Children’s social relationships are fostered;
• Teachers can expand skills by seeing what specialists do;
• Specialists can see if strategies are working;
• Teachers and specialists can focus on skills immediately useful for the children; and
• Specialists can work with teachers as problems arise.

Our visitation policy is:
1. If a child is receiving intervention (speech, occupational and or physical therapy; counseling, educational consultation, etc.), the family should inform the Early Childhood Director (Donna Peters, 545-8617 or dpeters@weinsteinjcc.org) or Inclusion Coordinator, Gini Blostein-Wolf.
2. Any specialist coming to evaluate, observe or provide therapy to a child must contact Gini Blostein-Wolf, Inclusion Coordinator at 285-6500 ext. 8119 or gblostein-wolf@weinsteinjcc.org prior to the initial visit.
3. Specialists should enter through the main Center entrance and check in at the reception desk to obtain access to the preschool. Each time they visit, specialists are required to sign the Visitors Log located on the wall next to the teacher workroom across from room 6.
4. A meeting with the family, preschool staff and the child’s specialists will be scheduled to provide information about the child’s needs and daily routines in order to develop a Preschool Individual Education Social Plan (IESP). Goals and strategies will be identified which will be embedded throughout the child’s preschool day.

Our all form completion policy is:
1. ALL forms (evaluations, checklists, reports, etc.) that need to be filled out by any of our Early childhood staff for any student being followed by the Inclusion/Support Staff MUST first be brought to the Inclusion/Support Coordinator, Gini-Blostein-Wolf. Forms for all other students MUST first be brought to the Preschool Director, Donna Peters, or Assistant Director, Barbara Wise.
2. A parent request letter or a completed release of information form needs to be on file in our preschool office or in the child’s Inclusion file before staff will receive the form.
3. Administrative staff will deliver forms to teachers to be completed and will return them to parents or agencies as requested.
4. Remember: Teachers will only fill out forms received from administrative staff.

I have read and understand the policy for visiting specialists and the completion of forms.

JEWISH HOLIDAY CALENDAR

Dates of Jewish holidays are set according to the Jewish lunar calendar. They begin at sundown on the preceding evening and conclude at nightfall on the dates noted. The Sabbath begins at sundown on Friday evening and concludes at nightfall on Saturday. Work is prohibited during traditional observances of these holidays. Therefore, Jewish community members may be absent from school, work and be prohibited from taking part in events and programs.

</tbody>
</table>

**For a 2,000-calorie daily food plan, you need the amount below from each food group.**

- **Protein Foods:** A variety of protein-rich foods from each week, such as meat, poultry, fish, beans, eggs, and peas.
- **Dairy:** At least 3 cups of milk, dairy, and cheese daily. Choose low-fat or fat-free milk and cheeses and reduced-fat or low-fat dairy products.
- **Grains:** At least 6 ounces of grains per day, such as whole wheat bread, brown rice, or whole grain cereal.
- **Fruits:** 2 cups of fruit per day, such as fresh, frozen, canned, or dried fruit.
- **Vegetables:** 2 cups of vegetables per day, such as fresh, frozen, canned, or dried vegetables.

**Be physically active your way.**

- \*Children and adolescents: get 60 minutes of physical activity daily.
- \*Adults: get 2 hours and 30 minutes of physical activity weekly, or more than one activity day.
- \*Active work break: break work activities to increase physical activity.

**Limit empty calories to less than 210 per day, based on a 2,000-calorie diet.**

**Cut back on sodium and reduce fat and calories from solid fats and added sugars.**

- \*Eat sodium less than 2,300 mg per day.
- \*Eat sugary drinks less than 200 calories per day.
- \*Drink water instead of sugary drinks.
- \*Choose those foods and beverages with lower sodium, sugars, and fats.

**Make healthy food choices and limit saturated fat, trans fats, choleseterol, and sodium.**

- \*Fats should be complex carbohydrates and polyunsaturated fats.
- \*Choose foods that are high in solid fats and limit those that are high in saturated fat or trans fats.
- \*Choose foods with a lower sodium content, especially processed foods.
- \*Choose lean meats and poultry.

**Make each food group count.**

- \*Include a variety of vegetables in your daily meal.
- \*Include a variety of fruits in your daily meal.
- \*Include a variety of grains in your daily meal.
- \*Include a variety of protein-rich foods in your daily meal.
- \*Choose low-fat and fat-free dairy products.

**Drink water instead of sugary drinks.**

- \*Choose water instead of sugary drinks.
- \*Drink water instead of sugary beverages.
- \*Drink water instead of sugary drinks.
Appendix VIII

**LATE PICK-UP POLICY AND LATE FEES**

Preschool ends promptly at 12:00 or 1:30 p.m. depending on the class. Please be sure to pick up your children on time. Young children enjoy their preschool experiences when they know their parent or carpool will arrive at the appropriate time. It is very unsettling for a child to be picked up late.

A fee of $40.00 will be charged for all children picked up late after preschool. This fee also applies to children picked up late after lunch bunch (2:00 pm); afternoon enrichment and/or lunch & fun classes.

If something makes you unexpectedly late, please call the staff and let them know when you will arrive. *Please be aware that your call does not negate late charges.*

**LATE FEES AFTER 5:00 P.M.**

The late fee charges are as follows:

1\textsuperscript{st} Time Late Fee Charge – a fee of $40.00 will be charged for all children picked up after 5:00 p.m. In addition, $1.00 will be charged per minute after 5:05 p.m.

2\textsuperscript{nd} Time Late Fee Charge - a fee of $45.00 will be charged for all children picked up after 5:00 p.m. In addition, $1.00 will be charged per minute after 5:05 p.m.

3\textsuperscript{rd} Time Late Fee Charge – a fee of $50.00 will be charged for all children picked up after 5:00 p.m. In addition, $1.00 will be charged per minute after 5:05 p.m.

*All late fees are due by the day after you have received the written notification.*

*Please remember that our program day ends at 6:00 p.m. *Late fees applying to after 6:00 p.m. are on the next page.*

We appreciate your cooperation.
LATE PICK-UP POLICY AND LATE FEES
AFTER 6:00 P.M.

LATE FEES AFTER 6:00 P.M.

The late fee charges are as follows:

1\textsuperscript{st} Time Late Fee Charge – a fee of $50.00 will be charged for all children picked up after 6:00 p.m. In addition, $1.00 will be charged per minute after 6:05 p.m.

2\textsuperscript{nd} Time Late Fee Charge - a fee of $55.00 will be charged for all children picked up after 6:00 p.m. In addition, $1.00 will be charged per minute after 6:05 p.m.

3\textsuperscript{rd} Time Late Fee Charge – a fee of $60.00 will be charged for all children picked up after 6:00 p.m. In addition, $1.00 will be charged per minute after 6:05 p.m.

*All late fees are due by the day after you have received the written notification.

* Our program ends exactly at 6:00 p.m.

\textit{It is each parent’s responsibility to pick up their child promptly and on time. According to the state licensing, being habitually late to pick up your child is negligent and cause for reporting to Child Protective Services. It is also a reason for termination of serves. Please make sure you plan for alternative emergency pick up by 6:00 p.m. if you are going to be late.}

\textit{It is very unsettling for a child to be here after closing even though he/she is supervised by a staff person.}

\textit{Please remember our staff’s work day ends at 6:00 p.m.}
Appendix X

WEINSTEIN JCC EARLY CHILDHOOD

Sunscreen in Preschool

- Please put sunscreen on your child every day \textit{before arriving}.
- If you would like sunscreen reapplied, please:
  1. Send in the original sunscreen bottle
  2. Label the bottle with your child’s name
  3. Return the bottom of this form giving permission to your child’s preschool teacher to apply sunscreen on your child.

\textit{Sunscreen must have an SPF of 15 or higher and be nonflammable.}

Please return this permission form to your child’s preschool teacher.

The Weinstein JCC staff has permission to apply sunscreen on my child, __________________________, during preschool.

☐ I am not aware of any adverse reactions from my child’s sunscreen.

☐ Adverse reactions to the sunscreen could occur.
  Symptoms would be:

Thank You!

Early Childhood Department
The 2018-2019 Parent Manual is located and updated from time to time online at weinsteinjcc.org. By carefully reading this manual, you will become more familiar with the early childhood programs, policies and procedures at the Weinstein JCC. Please read the manual, sign this receipt, and return this receipt to the preschool office.

I acknowledge that I have access to the 2018-2019 Parent Manual online and agree to adhere to the policies and procedures described in it.
